

Franklin Repository. AGRICULTURAL. The red hearty is protected by its more spongy straw, larger blades, and head, which will absorb a vast amount of moisture, and at the same time protect the sheaves from packing in the barn. To careless farmers we would not recommend it, but for the farmer who is careful, it is the best of any kind. It was raised this season in almost every section of the county, and can be procured in nearly every neighborhood. In buying from neighbors, however, be sure that their farms are not infested with galls, or with very good wheat purchasers may get very bad weeds.

The red wheat known as the Lancaster has been the chief reliance of our farmers in this county for some years. It is well adapted to our section, and can be grown successfully on lands, and with a degree of negligence, that would produce a failure with white wheat. It has, however, diminished in yield and in weight; but that is probably more the fault of farmers than the wheat. We do not regard it as absolutely necessary to change seed wheat frequently; but it is most essential that seed wheat should be cultivated and gathered with the utmost care. It is probably well to change from limestone to slate land seed occasionally; but it is infinitely more important that wheat intended for seed should be selected before harvest—it should be the best on the farm in all respects—it should be thoroughly cleaned of cockle, cheat, rye, &c. before it ripens, and should be allowed to become fully ripe—or what is commonly called dead ripe—on the ground, when it should be cut, taken in promptly and threshed at once. In this way we doubt not that the same kind of wheat may be raised on the same land for many years without deteriorating in any degree. One year ago we found our red wheat by no means good, and our neighbors but little better, if any, and we procured thirty bushels of red hearty—doubtless the same as our Lancaster—from the Lake shore in Erie county, and sowed it at the same time, and in the same quality of ground with the Lancaster. It grew much better, filled better, has about five grains more to the head, is whiter in both grain and stem and ripened a few days sooner than the Lancaster; and we hope with care to preserve it from year to year as the best of red wheat. This fall we shall sow entirely of it and the Boughton—about an equal portion of each.

—We have thus given the readers of the Repository our experience in three years of careful effort to produce good wheat. If we have succeeded better, we shall be glad to hear and learn from them through our columns.

**WASHINGTON.**

The Secretary of the President Lincoln has received from the Hon. John C. Calhoun, Secretary of the War Department, a copy of the report of the Hon. John C. Calhoun, Secretary of the War Department, on the subject of the preservation of the National Archives. The report is a valuable one, and contains many suggestions which are well worthy of consideration. It is a copy of the report of the Hon. John C. Calhoun, Secretary of the War Department, on the subject of the preservation of the National Archives. He ought to have more brains than usually fall to the lot of mortals. It is a pity that a man of his talents should be so much of a time-waster. He is a man of great talents, and it is a pity that he should be so much of a time-waster. He is a man of great talents, and it is a pity that he should be so much of a time-waster. He is a man of great talents, and it is a pity that he should be so much of a time-waster.

Washington has not yet recovered from the severe frost. The streets look comparatively deserted, and but for the civil and military magistrates with their uniforms, who cannot get away, and the usual assortment of contractors, speculators, and jockeys, with a sprinkling of officers who stalk from their commands as often as possible, the capital would be almost desolated.

It is situated at the terminus of the Eastern Division, one of the four great subdivisions into which the N. Y. & E. R. R. is measured; at the junction of two rivers and the intersection of the Delaware and Hudson canal with the railway. It takes its name from the well known engineer, Jarvis, who had charge of the public works in this vicinity, at the time of their construction. An effort was subsequently made to change the name to Delaware, but it failed, and the name of Jarvis remained. It is a handsome city, and has been retained. It is a handsome city, and has been retained. It is a handsome city, and has been retained.

Bodies, he means to be pugnacious at the next election. He means to vote—to vote early—in vote as he likes—to have plenty of room when he votes, and if a soldier stands in his way he will "murder him."

So Mr. Clymer has declared—yes, Mr. Clymer has sworn, it and he must be believed. If the good people of Berks, therefore, would not have their streets drink blood like water, let Mr. Clymer vote—let him vote!

Strange to say Mr. Clymer told the truth just once in his somewhat speech, but he did it in the most evasive and fatal manner. Indeed, the only truth that policy forbids him tell, he blurted right out in meeting, as so often and we forget who else, just when they shouldn't.

Hon. Heister Clymer is a Senator from Berks, and would have been a candidate for Governor had enough delegates been of his way of thinking in the late Democratic State Convention.

THE AGE OF THE ARMY VOTE. The Age has discovered a man's nest of gigantic proportions, and it labors through nearly a column of superlative indignation because, as it alleges, Gov. Curtin and his friends have demanded of the administration "to send sufficient Republican soldiers into the State to overcome by their votes the Democratic majority."

Rest easy, doubting, timid Age. Gov. Curtin has not demanded, one will be demanded, the service of Republican soldiers, for the purpose of promoting their votes, nor for any other purpose.

Of the legislative ticket, Mr. Nichols, candidate for Senator, has just closed a term of faithful service, having been elected in 1860 over H. P. Samuel J. Randall, now Democratic M. C. by some 300 majority, in spite of a packed Navy Yard, and Billy McMullin's adept management of the 4th ward. He has proved a most valuable Senator, ever true to the interests of Philadelphia, and true to the cause of the government. Although seldom participating in debates he was assiduously in a positive efficiency in this body. He will be re-elected by five times his old majority.

good spirits have been manifesting themselves, and they have, accordingly, a forwardly in the year, most not begrudging a generous humanity, for fear they might happen to vote, for the cause for which they have incurred the fearful odium of man. We assure the Age that, so far as it may be possible, all such small votes at the next election.

"We shall charge the Age nothing for forwarding it how it can 'outrage Gov. Curtin, and President Lincoln; preserve the peace and fair fame of our State, and prevent the advent of a single squad of soldiers into Pennsylvania." In all the Union, and many of the Democratic counties the draft has been made peaceably and patriotically by the people.

Harry Bunn was beaten for Treasurer two years ago by Dr. M. Clintock, and 5,000 he has been kept down to a majority of 5,000 or so last year, but the Doctor has been re-nominated. But John Brodhead, being a little more like Herod than Herod himself, ran away with the candidacy. He is personally one of the clearest of men, and if he had only plenty of "niggers," a broad field and a fair chance to "open it up to civilization," and a general heartiness "home in the sunny South," with plenty of overseers to crack the whip for him and attend to the profits, he would be a "hale fellow well met."

PHILADELPHIA, March 7, 1860. MR. JEFFERSON DAVIS:—My Dear Sir:—Can you tell me if General Latham is likely to remain much longer in Niagara? I should like to go to that country, and help open it to civilization and niggers. I could give strong recommendations from the President's present friends in Pennsylvania for the place, were the Mission vacant, and I think I would prove a live minister.

PHILADELPHIA. The local nominations are now complete in Philadelphia, and are as follows: Mayor, Democratic. City Commissioner, Democratic. Recorder, Democratic. City Clerk, Democratic. City Treasurer, Democratic. City Assessor, Democratic. City Engineer, Democratic. City Surveyor, Democratic. City Inspector, Democratic. City Comptroller, Democratic. City Auditor, Democratic. City Assessor, Democratic. City Engineer, Democratic. City Surveyor, Democratic. City Inspector, Democratic. City Comptroller, Democratic. City Auditor, Democratic.

FORWARD FOR THE UNION. Vermont, the star of New England that never pales in devotion to Freedom; Wilmington, the chief city of State Delaware, and California, from the far off Pacific slopes, have held elections within the past week, and with one voice they declare for the government without cowardly quibbles or qualifications. For the first time in many years the Democrats made a most vigorous effort to divide the Congressional delegation of Vermont and make a respectable show in the legislature. They taught peace and compromise in soothing strains, and denounced every measure of the government for the prosecution of the war, as unconstitutional and tyrannical, but the sturdy Green Mountain boys responded to their base appeals by sweeping State officers, Congressmen, Senators and legislature with a perfect avalanche—leaving copperheads just nothing at all!

In Wilmington the "friends" of Senator Bayard and Jeff. Davis exhausted themselves to gain a verdict against the government. The issue was squarely made by the copperhead journals that the election of the Union ticket would be an endorsement of the administration and its war policy. Every appeal was made in behalf of the doctored "institution" that still lingers in the State; but the people answered by electing the Union Mayor, a unanimous Union council, and all the city officers—carrying every ward and precinct in the city. While the shores of the Atlantic were thus declaring their undying fealty to the government, California responds from the golden Pacific, by the election of the entire Union State ticket, the entire Congressional delegation and two thirds of the legislature—driving fully 20,000 majority for the Government. Although voters from the west and immediate influence of the government, and steadily triumphed by traitors with the promise of a mighty empire west of the Rocky Mountains, the people of California declare in thunder tones that "the Union must and shall be preserved," and that no disloyal or quibbling copperheads shall be

would have elected Abbott by 250, and the loss of each district sent Charles R. Buckle to teach diluted treason in the U. S. Senate. The Union men will see to that district distinction. Bayard and Lathrop, the two ablest in the Democratic side of the delegation, however, will be likely to stay at home next time.

Ohio: entire Union City ticket will be chosen by from 6000 to 8000 majority. In 1860 Gov. Curtin was beaten 2,300 in Philadelphia by Woodard. In 1858, Gov. Curtin will have 10,000. It is safe to assume that in the city of Philadelphia, Montgomery, Chester, and Delaware, Gov. Curtin will gain 10,000 votes on his poll of 1860, which he had 22,000 majority in the State. With such a confidence of feeling, a Union voterization is equivalent to an election. The ticket is composed of excellent and most deserving men. Geo. H. Moore carried through in 1860 in the face of Curtin's defeat by over 2,500, and is the only man who has been compromised by a re-nomination. He is just the best fellow that could be put in office, anywhere, and may his fat jolly face be seen for many days at the Clerk's desk of the quarter session.

PHILADELPHIA, March 7, 1860. MR. JEFFERSON DAVIS:—My Dear Sir:—Can you tell me if General Latham is likely to remain much longer in Niagara? I should like to go to that country, and help open it to civilization and niggers. I could give strong recommendations from the President's present friends in Pennsylvania for the place, were the Mission vacant, and I think I would prove a live minister.

entrusted with power while the life of the Nation is threatened by armed treason. Thus do Vermont and Delaware, the free and brave, make their voices with California, in an appeal in behalf of the life of the Republic. Maine, Connecticut, Rhode Island and Kentucky had already spoken in condemnation of a dishonorable peace and traitorous advocates, and soon Pennsylvania and Ohio will swell the overwhelming response of the people for the preservation of the government, despite some rebels in the South, or their less manly shames in the North. The year 1863 has yet to furnish its first copperhead triumph at the polls; and as wars after waves of victory of Union men at home answers back to the glorious achievements of the Union men in the field, the ingrowing hopes of treason everywhere must grow fainter and fainter until they fade away before the onset of a united, peaceful and powerful Republic!
