The control of the co

prompt and generous assistance. We doubt not that the government is doing everything in its power to alleviate their sufferings; but even when its utmost powers are exercised, much still remains to be done by a loyal, humane, and prosperous people. To this fund every man, woman and child should contribute according to their means, and we earnestly urge upon all our people to move in the matter without delay.

Money contributions made to the Chris

cording to their means, and we earnessly urge upon all our people to move in the matter without delay.

Money contributions made to the Christian or Sanitary Commissions are of course the most desirable, as those organizations can procure all the luxuries and necessarics which mitigate the sufférings of our wounded at the very lowest rates; and such contributions should be forwarded at once, without waiting for a local Fair or the preat Fair to be held in Philadelphis. Our wounded need assistance Now, and one week of delay is said ingratitude to those who are writhing under ghastly wounds because they perfied their fives to escure us the blessings of free government.

Other contributions should, as far as practicable, be forwarded at once e-especially fraits, lints, bandages &c. Every family in Franklin should add its nite, or of its abundance, to this secred cause. If families have not money to spare, they can send a few quarts of dried fruits, or a package of worn out muslins or linenssal all of which are just the articles most needed now. Let no one withhold because his or her contribution would be too small to be of moment. The ocean is made up of drops, and a million of small contributions will solace thousands of our suffering warriors. Let all such contributions whether large or small, be made out from the survived of directly to Joseph Patterson, E-q. Western Bank, Phiadelphia, for the Sanitary. We presume that any merchant in the county would receive contributions from his neighbors, and forward them as directed. Goods can be sent to Oaks & Linn, Chambersburg, who will forward them promptly to either Commission.

OUR DAILY FARE."—During the approaching fair in Philadelphia, a daily paper will be insured for the Sanitary Commission, and will be contributed to by many accomplished withers (See. W. Childs, Edg. to Chairman of the Publishing and Editorial Committee, and will be assisted by Chaire of Goffey, beland, Gon. H. Boker, Prof. Copper, Rev. W. H. Fürners, and langlist of names not unknown to fame. There will be twelve numbers of the paper issued, and the charge for it will 5e one dollar for the series. It will be beautifully printed and in a suitable form for binding. Remit Lances can be made to Geo. W. Childs, 62e. Chestant Street, Philadelphia.
