enthandsmo of which that which greeted its announcement in the Convention, was but a faint premonition.

The saves from the front is very encouraging. Grant has commenced another of these strange fank morements, suddenly changing his base, and again puzzling the wits of Lee. One year ago to-day Grant was not near a close to Vielzburg as he is this day to Richmond, nor was the promise of staining that stronglod half so encouraging. Yet it fell in twenty days time. Who doubt but that Richmond, with a more powerfal army threatening it, and that army every day growing in strength by the addition of thousands of men and more formidable implements five seign and a shorter base of supplies than at Vichaburg—may not share its fate in the same period! Wait patiently a short time longer and we shall then see.

On hast Tuesday eversing, the National Democratic Assectation held an adjourned meeting in their wigrams. Senator Buildoury addressed them to be a supplies than at the standard of the same category with "negroes." He is formed the "gentlemen" into long, long ago, when he was a little boy, he used to pray, and, when yet a bash, ho loved and sang the pasim, "twas midnight on Jadea's plate," and from that he kenned that there should be "peace on earth," that he still loved it, and though fair cocktalls fad modern liquors might suppliant the maternal milk, yet would be ching to that he would be continued to the same of opposition and ery aloud, "peace peace." The long long and of opposition and ery aloud, "peace to peace." The facility of the pass and the same of Fremont, he was a way and the same of the peace with the same of the peace with the same of the peace." The sect a pay price." The long long and origineous applause from that he kerned that the Democracy had a "pro-ject in size by which all opposed to Lincoln, of opposition and ery aloud, "peace to seace." This was certainly in John C. Fremont, he was a "gested by long and vociferous applause. This was originally and errend would be united." He finally referre

At isough sirved in Pannotiaburg is protty good condition, when the Cemmittee was obliged to lears the old hack that had to long been as art of anfety and cheller from the politic grain. Eight miles were yet to be traversed our the "dosired haren"—Dry lâns (at the time, on account of the rocest mains by no means dry—could be reached. But spon the driving the embreal in the the passenger's faces, while used from the whople made free with dry goods in general, we will not comment. Sababath more than ordinary interest to the compression of Upper Path Valley Church. It was communion Rabetth, and one, whose boylood had been spent in their midet, but who had long been proclaiming the "evertasting accreases of the occurring with the worth, where in childhead he worthipped; in the interesting accreases of the occurring the sweet! A communion Sabbath in that quist country cherch, where in childhead he worthipped; in the interesting accreases they bestewed on each well known stood, the patient grain of the offered in the distant weet, was that day to assist the patter of the church, where in childhead he worthipped; in the interesting accreases if the occurring cl

Many an eye' was moistened with tears as the "man of God" referred to by-gooe days, and the fathers and mothers who had once occupied the pews in the old church, but now found a retting place in the "city of the dead."

One thing we must not neglect to notice. The moment we entered the church we recognized the dear familiar old lampe that used to illuminate our church in town, but which become the broperty of this congregation after the introduction of gas into Chambersburg.

After clurch there were warm greetings of friends and cousins, long separated, the pleasure of which to be appreciated must be seen as fell.

friends and cousins, long separated, the pleasars of which to be appreciated mass to see an affect.

Still it rained. At the close of the evening service the Pastor of the church, the Rev. Wa. A. Wesh, who had most warmly and cordially welcowed the committee to his charge, his did the matter before his people, stating the objects of the Christian Commission, and the good it is doing, and left it to their generosity to act upon his suggestionts. And onely did they respond to the call. This introduction by the pastor, made the "past of the committee straight" and pleasant. The good people of Talt Valley are earr early to said in a benerolest undertaking, and that in a spirit of exemplary liberality. But they like do be sure it in a neority cases, and the best plas to assure them of this, is to have their paster tell them so. They all seem to think whatever Mr. West says is all right? It is really reforming to wistoom the love, confidence and unity of spirit, which exist among this flock and their good shepherd and his gentle but energetic partner.

Monday saw the committee in company with a friend well adapted to the word, "going a begging" for the poor, dear, brawe soldiers, who have socified so smade for as. For searly two weeks the work was continued, and Upper Path Valley and Connord visited. What the committee hered was ever generously supplied; shores and carriages were provided by kind uncles, sessina, and patriotic friends; and some always went along to show the road, and help to talk. Saterday the 18th, we had some very heavy fighting. Our division was on the extreme left and just before night we were outlinked and greatly entrumbered at this point. Consequently our left wing gradually fell back. At this existical movement "fighting Joe" came up with his corps of veterans just in time to save us from disassers. Here our toos were heavy but that of the cossury musch heavier. Capt. Simpson's Baileter, Vib Indiana, was on the extreme left and did wonderful execution. ARECDOTE OF M'CLELLAN.—Col. Metcalf, of Kentucky, made a radical Union speech at a public meeting, at which he related an anocalot of Gen. M'Clellan, showing how he regarded the rebel leaders. He said:

"I got my eyes opened on that young Napoleonin the spring of 1961. I went to nee Gen. M'Clellan, and in the course of the converation I said to him that del Davis was a soundereland a repudlator. He (Al'Clellan) straight your, sir, you are naistaken. Jeff Davis is a perfect gentleman, and will not do anything tubecoming to a gentleman. Well, if a traitor, compirator, repudlator, and civil devil, who is instituting all this murder is his beautified of a 'perfect gentleman,' I hope our country may serve be curred orth his standard of morality as the head of daffile."

"Manas", sold a type polite travelor to a test yeld leadingly, "if I see proper to help myself to the milk is there as in suproperly in it?"
"I don't know what you mean; but if you mean to insinuate that there is anything nesty in the milk, I'll give you to understand that you've struck the wrong house! There ain't the done that the can be a drewward in the milk, I went stringt and starting of the court."

The young man fainted.

To the readers of the Rerostront this emserprise will not, we trust, used special commendation; but we appeal to them to take prompt measures to secure for Ture OLD FLAG the widest possible circulation, especially in the Southern contaction. Franklin alone should distribute fully 3,000 copies weekly, so that the truth may reach every home and every voter in the Green Spot. It will be seen that the terms are very low—but little bayand the mere cost of white paper, and local committees and Leagues should awall themselves of this cheap medium for promoting the great cause.

The Union National Convention met at Baltimore on the 7th instant, and unanisonally nominated ABRABM LINCOLN for re-election to the Presidency, and with sons, of Tennessee, for the Vice Presidency. A formal ballet was had for both; and every vote in the Convention was east for Mr. Lincoln—the vote of Missoutharian and the result was sanouszeed; and the nomination of Gov. Johnson was also made on the first ballet, and the votes so chainged before the result was sanouszeed; and the nomination of Gov. Johnson was also made on the first ballet, and the votes so chainged before the announcement that but few were recorded for his competitors. Never before has a National Convention discharged its high duties with such unanimity, and there is not a festure of its proceedings from which any considerable portion of the Union party will dissent.

In re-nominating ABRAHAM LINCOLN for smother term, the Convention but gave

the Union party will dissent.

In re-nominating ARRHAM LINCOLX for another term, the Convention but gave form to the almost unanimous and earnest expression of the loyal men of the Nation. Called to the Presidency in the darkest hour of our history, he was forced to grapple with treason openly arrayed against the government, and steathily slaying its asable perfidy in every department of power. Himself like the people, untrained to war and slow to appreciate the gigantic and desperate efforts to be employed in the destruction of our institutions, he has head the most fearfully responsible task to perform ever assigned to mortal man. Beset, too, on all sides by faithless and divided counsels in the forth; by perfishions Statemmon and treacherous or indifferent commanders in the field, and with a large, and sometimes a controlling party in the leading States, prepared to mortifle our Nationality rather than destroy the fruithil parent of discord and desth, it is strange, indeed, that has been successful. But with indomitable perseverance, matchless fidelity and sound, practical wisdom, he has mainhe has been successful. But with indomitable perseverance, matchless fidelity and sound, practical wisdom, he has maintained our sacred cause in sunshine and in gloon; and be day he presents to the Americans people two-thirds of the original dominions of treasen restored to the Old Plag, while confissedly the last great campaigs of the war, if successful, seems to be rapidly approaching completion. That he has erred in the multitude of phases in which have thickened around him in the various muthations of the struggle, on the various muthations of the struggle. in the various metations of the struggle, in not to be densied; but he has filled the highest measure of human skill and devotion to say impurified Country in the great conflict, and the judgment of a fathful people is that to him we own the safety of the Royalbia. For this reasons the People have demanded his permanent in the fathful for the Royalbia. For this reason the People have demanded his permanent in the fathful for the safety of the Royalbia.

ANDERW JOHNSON, of Tempesce, is a fit associate for Prosident Lincola in the peading contest. A life-long Dumocunt and a supporter of Breckhridge in 1800, he refused to sanstion the schemes of treason, and was one of the earliest and beliest in denfunding it in the United States Senate. Nor has be ever wavered for a moment in his skellity to the cause. He was a fugitive from his State because of its possession by reballs; but he struggled on and appealed to the North to strike for the maintenance of the government as long as an armed rebel defied its supremacy. Long did he suffer and wait for the deliverence of his faithful people; but at last he shared their triumph, and has since administered the government under the military authorities of the United States. He differs from his old Depiceratic associates to-day only in this—he is for subordinating all things to the safety of our Nationality, and lasvery having given us treason and war, he grapples with it in deadly strift and demands its extinction. Faithful under all circumstances—in the plarkest days which have dawned upon us, he cannot but be faithful when we shall all greet a restored and regenerated Union. All hunor to Andrew Johnson—the unflinching patriot of Tennessee, and the next Vice President of the United States! ANDREW JOHNSON, of Temperates, is a fit associate for President Lincoln in the

THE PENNSYLVANIA BESERVES.

The shattered columns of the Pennsylvania Reserves returned to the State had week, after three years of most heroic service in the cause of the country, and they were formally welcomed at the capital by Gov. Curtin and Mayor Ramfort, and by the grateful hearts of a loyal people.

ital by Gov. Curtin and Mayor Rumfort, and by the grateful hearts of a loyal people.

The Reserve Corps was originated and organized by Gov. Curtin. It was in obedience to his carnest appeal to a committee of the legislature that the measure was subprete, and the bill was carefully drawn under his immediate direction. This was in May 1861. Few men in the North then apprehended a protracted and bloody war: but Oov. Curtin, ever alive to the interests of his great State, and faithful to the cause of an imperiled Nationality, was ceaseless in his efforts to effect the organization of a Reserve, to effect the organization of a Reserve, to free bill in the legislature, as the conviction was general that the movement upon Bull Ran would practically end the rebellion, and the large expenditure necessary to recruit, organize, arm and equip such a corps, made even some faithful men slow to assent to the measure. The result, however, more than vindicated the foresight of Gov. Curtin. Before the organization was completed, a call was made upon him for aid in Western Virginia, and the regiments of Colonel Simmons (killed on the Peninsula) and Col. Biddle (since turned malignant copperhead) with two companies of Artiliery under Captain (now General) Campbell, were narched to Cumberliand and did good service on the line of the Baltimore and Ohio Railroad.

the line of the Battimore and Ohio Railroad.

Soon after the disaster at Bull Run dashed the high hopes of the National Capital. Myowell's army was utterly routed, and retreated panie stricken upon Washington—thousands pressing into the city, while the rude fortifications on the Virginia side were but imperfeetly manned. So grave were the fears for the safety of Washington for several days, that Commodore Dupont and other eminent naval and military men went into the fortifications to bring order out of chaos and aid in serving the guns in case of an attack. In this fearful extremity, there was no State but Pennsylvania that could afford succor; and to its faithful Executive and legislature, and the brave in men who responded to their call, was the Xation indebted for the safety of the Capital, and also for the neucleus of the Xaray of the Potonac, which has won a fame as wide as the World and endaring a fame as wide as the World and endaring a fame as wide as the World and endaring a fame as wide as the World and endaring the serves commenced their march to Washington on the 22d of July 1861—the very day after the defeat of M Dowell, and in a few days they were all in the field, 15,856 strong. Last week the survivors of returned, and carrely 3,000 of the original anusher bore arms the day they were discharged. Such is their record of herotomia. Of the original affecen Colonels, but one returns with his command—Col. H. G. Siekles, of York. Col. Simmons, of the Siekles, of York

one time left as commander of the whole division.

The Reserve Corps was organized under. Gen. M°Call, who was a fine dicplinarian; but he failed as a commandar in the field, and was mustered ont of service. He had under him Gens. Beyanda, Meade and Ord. M°Call commanded in the Peninsula campaign, Meade in the Antietam and Fredericksburg sampaigns, and Crawford in the Gettysburg and Grant campaigns. Of its three original brigade commanders, Reynolds became commander of the First Army Corps, and fall gallantly at Gettysburg i Meade is now in command of the Antied Commander of the First Army Corps, and fall gallantly at Gettysburg i Meade is now in command of the Antied Commander of the Commander of the Commander of the Army of the Potomac, and Gen. Ord was promoted to the command of the Thirteenth Army Corps and served with discentifications.

Army of the Potomac, and Gen. Ord was promoted to the command of the Thirteenth Army Corps and served with distinction in the several campaigns about Vickaburg. Of the other brigade commanders Gen. Jackson was killed, and Gen. Seymour is a prisoner. Col. M'Candless is at home in Philadelphia, wounded. Col. Flaher returns with his men, and Gen. Crawford is still in the field, after having led them with great skill and galantry in some of the most sangulary battles of the war.

The first triumph gained by the Union arms in Eastern Virginia was won by the Reserves at Drainesville under Gen. Ord; and every battle since fought by the Army of the Potomae was participated in by this brave corps. In no instance was its finne blotted in buttle—lite record is one of perpetual heroism and bloody sacrifice to maintain the life of the Republic. As instances of its gallantry, its losses in the "Seven days" Battles" were 3,074; at Frederickshurg 1,760 out of 4500 taken into action; at Antietam 1,118, and in the battles of the Wilderness and the Power 2,200, including however some 800 occurred. the battles of the Wilderness and the Po over 2.00, including however some 900 captured. Such is the history is brief of the battle-centred Pennsylvania Reserves. After three years of service in which they have enriched the ground of every eastern battle-field with their blood, they return with searcely one-fifth their original number. The living come to meet the grateful plaudits of a loyal people; the dead sleep in their nameless tombs, but their memory is enabrined in the heart of every patriot.

Unity in the councils of the Nation is imperiously demanded by the public interests. A divided, discordant cabinet, neutralizes its own influence upon the policy of the country, and can be peculiarly potent only for evil; and no President has yet proved himself equal to the task of auriving belligerent constitutional advincers.

The resolution of the Union National Convention declaring it "essential to the general welfare that harmony should prevail in the National Councils" was not a random expression of a general principle. It was called out by facts patent to the world—by palpable, irreconcilable dissentions in the cabinet of President Lincolin; and the further expression by the same Convention that "we regard as worthy of public confidence and official trust those only who cortially endorse the principles prochained in these regulations, is an imperative demand for the removal from the Cabinet of those who have hung like mill-stones about the progressive ideas of the age.

Post Master General Blair is confessedly the head and front of the offending, and how far behind him the stream may be traced, we are not advised. He has assumed to declare a policy for the administration directly confronting the precipilation directly confronting the precipilation directly confronting the proper of the war have been districted and their aims defeated. Patiently have the supporters of the President; and in his name, and seconded by his official patronage, the concils of the carnest supporters of the war have been districted and their aims defeated. Patiently have the supporters of the bresident; and at last the highest authority of the party has solemnly declared that he must retire. By a vote of 440 to 4, the Blair delegation was ejected from the Convention of the Edshire passed without an opposing voice; and Maryland, the home of Mr. Blair, followed the next day, with the rejection of the Blair organization in the State Convention. On this point, there is not the president has had line upon line and precept upon precept With such elements in the Cahinet.—holding that treason and rebellion forfeit no rights under the constitution.—Fremont may poll 100,000 votes; with a Cabinet honest, earnest and united in the great work of preserving the Republic, his vote must be utterly insignificant and unavailing for every purpose, save to prove that fools still live and will run for President. The "harmony" in a Cabinet that is declared to be "essential to the general welfare," has no limited signification. It is defeated alike by antagonism in con-

welfare," has no limited signification. It is defeated alike by antagonism in conviction, in ambition, or in personal relations; and the Cabinet that errs in either, errs fatally and must break itself or its creator. That the existing Cabinet has been saily wanting in unity of purpose and action is painfully manifest to the

der Gen. Granti mil Odi Maria was at Nation; and its frame and pathered in administration Congress advances to the re-nomination of the President, in defiance of his unparalleled popularity with the peo-ple; and again it culminates in a National Convention unanimously re-nominating a President, and with one voice condemn-ing a portion of his chosen advisers. This anomalous condition of the adminis

a rrespect, and with one voice condemning a portion of his chosen advisers. This anomalous condition of the administration is now presented to the Country by the highest council of its rieuds rand if the self-respect of those who have invited the verticet of condemnation does not make vacunt places in the Cabinet, the President has but a plain duty to perform—he must cast the Jonaha overboard. We do not know, nor do we care, where the purifying process shall end under the emphatic mandate of the Couvesition. In a crisis involving the very existence of the government, we have no preferences to consult—no admiration to gratify. If a very respectable Attorney Goneral removes a subordinate in Missouri because he actively supported the ticket that the furloughed soldiers of the rebel army did not vote, it would not, in our judgment, require much nicety of construction to reach the conclusion that his place would be more acceptable to the Nation than his counsels; and however harmonious in principle, with incompatible temperaments, a Cabinet must fall far shortor that unity "essential to the general welfare." This issue must be met, for the party in it as supreme council has been forced to take cognizance of it and to demand the only remedy; and we hope soon to record a tell a revision as will make a Cabinet. This issue in reputation, commanding in intellect, united in conviction, and animated by the holy duty of preserving to ourselves and to posterity the Union of our fathers.

ourselves and to posterity the Union of our fathers.

THE Democratic papers are jubilant just now—not because Gen. Grant has been successful in driving Lee back more than fifty miles over and around his strongest fortifications; but because he is now on the Peuinsula, where General M'Clellan happened to be two years ago; and they with one accord condemn the administration for Gen. Grant's battles and sucrifices in reaching the Peninsula by the Fredericksburg route.

We speak advisedly when we say that Gen. Grant's campeign was of his own conception, and has been executed in his own time and in his own way from the day he assumed command until now; and he will continue to fight it out on his own line until he takes Richmond and crushes out the rebellion. Equally supreme was Gen. Grant in the selection of his subordinate officers. There has not been an important change made in the arnies of Meade and Sherman since Gen. Grant was confirmed as Lieutenant Gen-circul, that was put done in obedience to his directions, and so it will be to the end. If the campaigns now in progress are successful, to Gen. Grant will belong the ferredit for the grand results attained. If they fail, to him will belong the blame, for every power of the government has been placed at his disposal. Where, when or just how be will attack Richmond, he alone knows, or will know when himself determines; and if an hunmond, he alone knows, or will know when he himself determines; and if an hun he himself determines; and if an hundred thousand more men are needed to give him success. he has but to call forthem, and the government will sapply them. In his hands rest the destiny of this government so far as its destiny depends upon the success of our arms, and the reckless censure of military movements by the copper-heads, hoping thereby to heap obloquy upon the administration, is but a vain attempt to defame the greatest of living commanders—Lieut Gen.

Grant!

THE Eric Observer demands the postponement of the Chicago Convention,
and gives as a good reason therefor that
Gov. Curtin would not have been elected
"had the Democrats of Pennsylvania been content to wait until a month or two pre-vious to the election last fall." It adds

content to wait until a month or two previous to the election last fall." It adds that "a like amount of caution and judgment would have given us a Governor in Ohio and State officers. In New York." Complimentary to Vallandigham, Woodward and Seymont: Hadn't the Observer better suggest the postponement of the Copperhead National nominations until "a month or two" after the election? It's about the only change its party has of ecaping a repetition of hast fall's drubbing, only a little more so? Postpone by all means. Macawber gives the one—something might turn up!

HON. ALEXANDER KING, of Bodford, has been dominisationed President Judge of this District by Gov. Curtin. The expression of the Bar in favor of Mr. King wassumanimous, we believe, in the several counties—certainly no other name was presented to the Executive, and he will assume the ermine with the cordial approbation of the Bar and people of all parties throughout the district. He is a gentleman of high legal attainments, of enlarged experience and of most blameless character, and we doubt not that he will make an eminently upright and successful Judge. We hasard little in assuming that he will be unanimously nominated by the Union Conference, and will be elected by a very large majority.

The Greek Fulr day the benieft of the Sanitary Commission episods in Philadyphia on Tuesday of last week. GevaCurtia, Parker and Cannon delivered
addresses. The Philady-brises have prepared for it in signification to the surprise
ity, and have contributed most geomeonity
to all its department. Not less than half
a million, and probably more, will be realized for the benedit of our sick and
wounded soldiers; and coundering that
another Far has been held in Pithaty,
the contributions of our Seate will fall
but little if any short of the Great Fair of
New York. A swerd is being veted for,
and we hope to hear that it has been
awarded to Major General Meade.

awarded to Major General Meade.

THE nomination of Gen. Fremont for the Presidency by the Cleveland Convention, is without a single supporter in this section of the State that we have heard of. Even the Spirit seems so malicious as to speak well of Mss. From being a General without an army sind a estacesman without a record, he has become a Presidential candidate without a party.

GEN. CAMERON has issued a call for th Union State Central Committee to mee in Harrisburg, on the this day of July. A full attendance is requested.

LINCOLE ON THE BORHATION.

GUV. Dennison, as the head of the committee appointed to notify President Lincoln of his nomination, waited upon Mr.

Lincoln on Thursday last, and officially informed him of it in an appropriate appeal. To this the President replied—speech. To this the President replied—it.

HON. EOWARD MCPHERRON is preparing a Political Text Book to be issued about the let of August. It will present the history of all the leading questions pertaining to the war, both before and since the resort to arms, and will be invaluable to all classes of intelligent readers. Mr. McPherron is peculiarly fitted for such a task, and his work will doubtless he come a standard authority for the future students of our thrilling and crimsoned history.

EDWARD SCULL, Esq., was chosen Delegate to the National Convention by the counties of Somerost, Badford and Pubton, and was the colleague of John Stevart, Rap., at Bakimbe. He was instructed for Lincoln, and robed with the entire delegation for Mamilia first for Vice President and then for Johnson:
