It may be useful to state in this connection that the total Product Debt of the United States on which interest is payable in gold, on the 3d day of March, 1881, was \$75,975,000. The interest on this debt for the coming flowed years will be \$35,971,28, while the controls revenue in gold for the current found year and in June 30,071,000,000 per annum. It will be soon that even the present gold revenues of the thorrormont are largely in names of the thorrormont are largely in names of the wants of the Transary for the payments of gold interest, while the recent insprase of the tariff will doubtless raise the annual receipts from customs of the ame amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as foun agent were not issued from the United States Transary antil March \$5, but in the first three weeks of April the subscriptions averaged more than TEX MILLIONAS AVEKS.
