away temperaruy wy.

THE OLD FLAG, our illustrated campaign paper. will be issued on Thursday of auxt week, the 21st inst. We have the most substantial evidences of the favor with which it will be received by the friends of Lincola and Johnson. Persons making clubs should return them within the next week. We shall issue a large edition, but it will likely be soon exhausted, and late clubs may not be able to preserve the full numbers. The first issue preserve the full numbers. The first issue will centain an excellent portrait of Hon. Anstrow Johnson, with an interesting biography, and second will give a portrait or President Lincola.

At the time of this writing (3) P. M., Tunning,) comparative quite has been studened in this section. The movements on our border were made by the rable cavalty, which covered as much territory as possible to resons plunder, and distract attention from the real movement upon Washington.

After the rabel infantry had crosself the Potomas on Thursday, and started for Frederick, their lines were withdrawn them Hagerstown, and the whole force moved East. Gen. Wallace made a gallant stand with inferior numbers on Saturday, on the Mosonacy, near Frederick, but was compelled to retire.

On Monday the rebel cavalry severed both the Northern Central, and the Winstepton roads, and isolated Battimore and Washington from the loyal States.

mington roads, and isolated Baltimore and Washington from the loyal States. Two trains were captured on the Wilmington road, and several bridges burneds and the Northern Central. Communication with Baltimore was soon resumed, and the rebel force seems to have moved between Baltimore and Washington. Our last advices state that the main body of the rebel forces is in the immediate vicinity of Washington, and that bildminishing is going on. The decisive health for the safety of Washington must be sught before twenty-four hours. The

samaning is going out. The decraive shades for the safety of Washington must be stught before twenty-four hours. The robols dare not delay, as their lines are in constant peril. We have abiding faith in the issue. A just cause said a brave enemy stand between the hosts of treason and the capital of the Republic. A rumor was started here yesterday that the rebels had re-occupied Martinsburg. It is entirely without foundation. Cel. Bullivan held it yesterday, and no subale had been heard of in that neighborhood. Gen. Hunter's army is on from Western Virginia in force.

We have no further advices from Gen. Succession.

We do not know whether the new mi-tin law is perfect in all its details; but is should be promptly and thoroughly shift, and let its defects be developed so that they may be remedied hereafter. we must may be remedied hereafter.— We must have earnest, thorough, and ef-ficient militia organizations at the earliest passible period in this State, or perpetu-cilly eaffer from raids and the constorna-tion natural to a defenceless people when either real or imaginary danger threatens

them.

Thicks the war on the border shall be genetically ended with the summer campaign by Gen. Grant gaining possession of Michmond and Virginia, the organization of a reliable Reserve Corps for State culmes is an imporative necessity, and a threemen militie organization should also be effected so that our force may be made available at any moment.

The Pennsylvania Reserves could be resuffed to the service of the State almost culture, and with the tried waters and that

resigned to the acrice of the State almost castion, and with the tried vaterans of that carge as the neucleus, a body of ten or fiften thousand men could be organized, that would insume the asfety of our entire basiler. Had such a force been in existence, well officered, the marranding moves, well omerced, its maranding move-te recently made into Hagestown \$2 sever have crossed the Petomace \$2 sever have crossed the Petomace \$5 stores and trains at Martinsburg, \$450 have ventured no farther in this

She securities of Franklin and Adams hasp these been saided and plundered by the melals; Comberland and York hases also here saider the free heel of teathers, and the Western openation have been assumed them there are the said four-diffy partied popular of their defendence. The subspace of their flatences as better the will continue as less than the subspace of their flatences and the subspace of the soldiers' cause. It is the dary of all. Fill their shattered ranks; there then will be subspace of their flatences as been analyzed because a barotic Army let our sacrud cause be enlighted. This will continue as long as trust d.

Virginia is the theatre of war, and the immense wealth of the border counties meat ever be a tempting invitation to the axhausted foe.

To wait fer the fee to appear upon our

. .

exhausted fve.

To wait for the fee to appear upon our borders and then call apon the general government or the militia, is to refuse to avail ourselves of our own inherent strength, and to isour vast expense fruit-leasly. The militia of this State have twice been with us after the fee had retreated, and it is no discredit to entirely raw and disorganised troops, with no purpose to fight veteran rebels and no appreciation of discipline, to say that they have never accomplished anything beyond a severe infliction upon their friends; and the display of a costly oranement to the State. This war is quite too carnest and desperate for rolleking sufficial to play a creditable part in it.

The remedy for all this is—first an efficient and reliable Reserve for State defence, officered by experienced men, and such an organization of the militia as will keep them in readiness to be called out by companies and regiment at one.

This certainly can be done, and to delay it longer is to trific with the interest and fisme of our great Commonwealth. The power is ample; the necessity is imperative, and let the legislature in August art, and let the legislature in August art, and the the proposed and the propose

to her people.

We give in to-day's paper the two proclamations of Gov. Curtin, calling for troops to garrison Washington, Baltimore and other points, and to protect the borber; and also two orders from Maj. Gen. Couch, one of which calls for 1,000 mounted men for acouting and picket duty on the border.

and other points, and to protect the bore; and also two orders from Maj. Gen.
Couch, one of which calls for 1.000 mounts of most ore covering and picket duty on the border.

Franklin county andly needs every man in her fields for the next few weeks, and even with our whole available habor much of the harvest will be lest; but the defence of our State and of our homes is the first duty of the citizens, and we appeal of the province of the prov

faltering faith in the triumph of the Republic.

The hour of danger is the test of fidelity. He who is ready to bow under the shadow of adversity, because the hoots of crime confront both Grant and Washington, prefers anarchy to order, and starless despotism to Constitutional freedom. He would cloud the graves of our martyrad freed with dishouoir and doom the living to jumiliation and lawlessmess. Sizesly, faithful men—steady! An imperied Nationality is to be rescued—the hope of the living and the fame of the dead demand it!

Tate Professe stripes the election of the ablest men on both sides to the next Congress. The Unimists, it says, should short such men as Henry C: Carey and the Democrats such men as Geo. M. Dallas and Judge Woodward. Considering that Dallas and Woodward live in the city of Philadelphia where copperhead congressmen are not wanted, and also that for anght we know, Carey, Woodward and Dallas altwo in the same district, we hard ly look for the fulliment of the Pribmer's wishes. True, some outside districts might Dalias live in the same district, we hard ly look for the fulliment of the Tribure's wishes. True, some outside districts might elect Woodward and Dalias—such as Berks or the Tenth Legion: but we dorbit whether they are inclined to borrow in that direction. Upon the whole we conclude, therefore, that Woodward and Dalias must stay out.

clude, therefore, that Woodward and Dallas must stay out.

Mark well the malignant, treacherous copperhead in this crisis in our country's cause. The shadow of adversity quickens his whole perfidious powers into life, and he scatters unmanly treason ou every side along his pathway? He would yield to treason because he loves it—because he hates the free institutions so sacred to every patriot, and he serves the purpose of Jeff Davis with more offset than his nurderous soldiers if he can make loyal hearts dospair. Let faithful men rise in their majesty and declare with one voice that the UNION SHALL DIK!

and THAT TREASON SHALL DIR!

LET loyal men guard well against the insidious wites of the faithless in this hour of trial. It embodems the treacherous and disloyal to predict the fallure of the National cause, and sow the seeds of distruct widespread in our midst. The man who does so now, instead of resolving to resist the murderous invasion of treason, is a foe of the government and is seeking its destruction. Let loyal men stand firm. The last death struggle of traitors is upon us, and fidelity to our Country and our Country's cause must triumph.

Gen. Kelly telegraphed to Gen. Couch yes terday aftersoon, from Cumberland, that there is no truth in the report that Imbudent's and Morgan's exawlry are following Hunter's forces. Hunter's forces occupy Martinoburg, and another Federal force holds Hagerstown.

The rebels still hold the South mountain passes in Maryland, whilst their hanh body threatens Baltimore and Washington from a point between the Monocacy and the former city.

The rebel cavalry advanced within fournisles of Tenultytown yesterday but were driven back. The pirate Florida was off Cape May on Monday, where she destroyed several vessels. Information has been received by President Felton, of the Philadelphia and Baltimore road, that the Gunpowder bridge has not been destroyed. The rebels were attacked by a gunboat as they were about to set it on fire, and driven off.

A reliable Washington dispatch dated July 10th, 8:30, P. M. any a that the government is wide awake, and has been so for days. It is resembrating the troups in Ealtimore and elsewhere in Maryland most abundantly, and the preparations for the defense of the national expital are ample. The nation may depend upon it that no serious and no abiding impression will be made by the rebels in this raid.

We can have no information of frant's operations. All intelligence of the movements of troops has been prohibited for five days past. That he will strike promptly and fatally upon the column of Lee now across the Potomac we cannot doob!.
