Capt. M'Dowell entered the service out of pure and patriotic motives and through an unselful devotion to his country. While he lived he never left his post and when he died his country lot one of its bravest and noblest defenders. Shortly after the Captain was killed our men made a charge in front and on the right of our Battery, but did not succeed in taking the rehel works. A great many of our une fail while nodeavoring to elimb the rebel works. Just of the charge and his loss was very wraps. General Harbor's and Gen. Whitsher's Brigades took part in the charge. I shall never forget Gen. Harbor's pleasant smiles as he crossed the works at our Battery and raised his hat cheering his men on to victory or death. Gen. Cel. M'Cook commanding a Brigade was also wounded. Our less here in wounded officers and men was terrible. A great many were killed. I never easy more deeperately wounded men in my life. On the night of the 199th the enemy made several unsuccessful charges. We got short of horses and turned over (yesterday) two guns and caisons. We will got two guns again as soon as we can pet horses. Lieut. J. Zeigler is now commanding the Battery, cle is a brave and good soldier. He and Lieut. E. F. Shatzer are the only commissioned officers we now have. Serget, John Mueller has been commanding one section in the last few engagements. He is Orderly Sergeant and is a brave man and will make a good differ. C. M. Camp. Q. M. THE CONGRESSIONAL MOMINATION.
To the Elizers of the Frenklin Repository:
The nomination for Congress in this district will be decided in the conference by Franklin and Adams—entither having a candidate as I learn, while certainty Bedford and Souteret.
And probably Falton, will present candidates.
Bedford has presented Col. Frank Jordan, now Military State Agent at Washington, and an one worthy gentleman; and Somerret has presented Gen. Wm. H. Koontz. The nomination seams to be concerded to one of the two. Somerret is the country on which we must rejute the control of th

A resolution endurange landighum, and pledging the State to stee him, was best amid moth confusion, and stated completely pledging the Democracy to take civil and personal liberty at all humsur—Ger. Hon. John. Covode declined on account of recent demantic, offictions—haring lost two sons in the army, Upon bis declination the Westmoreland Conferes voted for Dr. St. Clair, new Scontor from Indiana, while Indiana voted for Hon. Win. Niewart, and Payette steadily adhered to Dr. Fuller. He was finally nominated—the vote steading—Fuller 5. Stewart 2: 38. Clair 2, when the nomination was corduilly made unanimous. Dr. Fuller was chosen to the Sonate by Westmoreland and Payette in 1860; was a very efficient legislater and has great strength with the people of his district. Hon. John. L. Dawes will be his competitor. The district voted for Governor last fall as follows—Curtis, 11,566; Woodward, 11,327, Curtis's majority 219. BORDER DEFENCE.

Had Maryland been favored with a judicious and thorough militie system, by which the entire arms-bearing population of the State could have been called into service in twelve hours, organized, usiformed, armed and equipped, her people would be sEVERAL MILIONS of dollars richer to-day. Most of the cattle, horses, and other stock taken from Maryland, were gathered by marauding parties of rubel cavalry from twenty to five hundred in number; and had they met organized and armed men at every cross-road and found themselves liable to ambuscades in every cut, ravine and forcat, their depredations would have been confused to the immediate section occupied by the main rebel force. Pennsylvania escaped the iron heel of

Pennsylvania escaped the iron heel of the exacting free booters more by good lack than by any special foresight or wise legislation. Her immediate border at this point was doubtless saved from spe-liation by the skill and energy of General Couch and the cordial support given his plans by the citizens generally; but it, was rather the weakness of the foe than the positive strength of our friends that has left us our harvests and stock, while our neighbors of Maryland have been re-morselessly plundered of millions. There was relief force enough within twenty-five

The last feeble effort of traitors to invade the North has ended, and ended in utter failure, considered in any respect us a military movement. It failed in its prime object—to raise the siege of litch mond, and their plunder will but poor ly repay the exhausting march, the losses of battle and the tinned ranks by describins. There are no indications of rebels any whereon or near our border, and the two-per sherman than the respective for common safety should be considered and a strate Guard or Respective treat.

The State owes something to the thrice plundered and ever threatened border, and it is asking but littlethat, in addition to the general measures adopted for common defence, the people of the exposed counties be organized under compulsory laws, reaching every able-bodied citizen from eighteen to fifty who is fit for home service. They should be formed into companies, regiments and brigades, and armed, uniformed, munitioned and fully equipped for service by the State, so that they would come under the established equipped for service by the State, so that they would come under the established rules of war, and even guerrillas could not find a pretext for their butchery in case of disaster. They should be required to drill at stated periods, with heavy penalties imposed in case of wilful neglect, and they should be paid by the State when called out for special service. Such an prganisation effected in the counties of York, Adams, Franklin, Fulton, Bedford and Cumberland, would be a certain preterion against rebel raida. A marranding party of even 5,000 such could not hope to gather plumber in the face of such a force

ever on its flanks and in its front and rear, as it would be put on the defensive and periled at every step.

The State has arms and animunition;

The State has arms and armmnition; equipments for both cavely and infanty, and has artillery and all that pertains thereto but horses. The cost of uniforming the men and paying them when actually called into service, would be the whole tax upon the State; and that could probably be divided with the general government. We submit to begishators and to the authorities, both State and Autional whether themseration of an Authority whether themseration of an Authority of the State and Authority whether themseration of an Authority and the state of the to the authorities, both State and National, whether the protection of the border people, already sorely despoiled, and the fame of the Commonwealth, do not demand the measure. Under such a law Franklin county would have 4,000 men under arms, embracing artillery and cavalry, under General Couch's immediate call, and the adjoining counties could swell his defensive force to a clever sized army in a day. We have experienced and brave soldiers in abundance to officer the whole force, and if the legislature will but do its duty in the premises, we can safely answer for the people of the border performing their part promptly and effectually.

SHALL OUR SOLDIERS VOTE?

con neighbors of Maryland have been my more-dessly plundered of millions. There was rebel force enough within twenty-five miles of Chambersburg to have marched to Carlide, and devastated the fairest valley of the State, warning with valuable stock, and golden with the richest fairts of the husbandman. That they didit not, is our fortune—if they shall be able to do it hervafter, we shall descrive it. Already the border counties have smillion, of which nearly an equal division may be charged to friend and foe, and we submit to the legislature will meet in a few weeks, and, notwithstanding the restriction of its business by the resolution of adjournment, the deferice of the State is a question so vital to the people and so directly affecting the fance of a great a great of the common wealth, that all necessary mees—

In short the Democratic politicians are opposed to confering the right of suffrage upon our volunteers, believing as they do that soldierswho fight for a common Nationality will not vote with its fores. THE DRAFT FOR DEFICIENCIES.

The Board of Enrolment for this district made a draft at the Head Quarters of the Provon Marshal in this place, on Tuesday, the 5th inst., for actual deficiencies on the late draft core in the property of the province of the province of Palton, Adams, and Bedford. Since that draft one hundred per cent. additional for the deficiency of each district, so as to make the quota complete without drawing again, and accordingly the draft was made yesterday sor Franklin and Somerest with the excess. An additional draft will be made hereafter for the deficiencies in the law requires the quota of such sub-district to be filed activity either by commutation, substitutes or personal service. The new law abolishing the commutation chance does not apply to the draft now being made, and conscripts can still be released from duty under this draft, but not from fature draft, by the payment of \$300. It would be wise therefore for every person who can do no to render service in person or by substitute, as they may be drafted by a new call under the amended has within a month after paying commutation.

We subjoin a list of the names drawn on the this inst for deficiencies:
