HON. ABRAHAM LINCOLN, UNION CANDIDATE FOR PRESIDENT.

When these articles were published, the rebell dead and wounded in front of Fort Stevens were being haried and eared for by our troogs—their army having retreated hastily to Virginis, there to meet another repulse, and the re-capture of unot of their plander, at the hands of General Crooks. Lying seems to be a chronic infinity with rebels, north and south.

—We have seen a letter from a soldier of Franklin county who was with Hunter in the movement on Lynchburg. He says that the Union troops near Prederick, when the rebels were retreating, but was middle to the tribut, and that on the 19th the battle was fought without decisive result; but the relief having been re-inforced from Richmond, limited the tribut, and that on the 19th the battle was fought without decisive result; but the relief having been re-inforced from Richmond, limited the limited that the state of Kentucky, and a West Point graduals to Kentucky, and a West Point graduals disconting the control of the rarks and were lost of the retreat. This retrograde movement of our forces created much uneahiness on the border, and a number of persons near the river eat their stock off again; but at the time of this writing (3:30 p. m. Tuesday) no re-bel demonstrations have been made on the Potomac at any point; and we do not the Potomac at any point; and we do not apprehend that any will be made. Gen. ch has the border well picketed, and the fords are all guarded, so that a surinte forms are all guarded, so that a sur-prise upon our people is hardly possible bould any threatening movements be made in this direction, we doubt not that Gen. Couch will, as he has always done heretofore, give timely notice to remove stock and other valuables.

Wm. H. Koontz, of Somerset, for Congress, and Hon. Alex. King, of Bedford, for Judge. The Convention was entirely harmonious in its action. A series of sound resolutions were adopted.

A Bedford county correspondent writes us that the copperheads in that section are industriously circulating the report, that if the soldiers are allowed to vote, negroes in the service will also be enabled to vote. By this sort of misery resentation they hope to induce men to vote against the amendment conferring the right of suffrage on our brave soldiers. It is a palpable, whole cloth falsehood. The proposed amendment simply confers the right to vote upon "gradified electors" of this commonicalith" who shall be in the service; and the "qualified electors" are, as every one knows, white men over twenty-one years of age.

Gens. Crooks and Averlill, pursued the rebel Gen. Early up the Shenandonh Valley, and defeated thin in an engagement on Toesday of last week. On Saturday the rebel forcesof Breckinridge and Early were concentrated, and attacked Crooks near Winchester, compelling him to retreat to Martinsburg. ### VOLUNTEERS AND BOUNTIES.

VOLUNTERÍS AND BOUNTES.

We give elsewhere the quotas of the several districts of this connty under the late call for 500,000. Our table may not be exactly correct, but it will not vary materially when the quotas are officially declared. It will be seen that our county must furnish an aggregate of 870 men, and adraft will be made on the 5th of September, or soon thereafter, for the deficit in every sub-district.

We trust that some uniform system will be adopted for the raising of volunteers and the payment of bounties. Certainly each county should have uniformity in its sub-districts, and as far as practicable there should be uniformity in the counties throughout the State. We are not conident that the most unjust system practiced by the cities, of offering large bounties to obtain recruits from the rural districts, can be arrested; but we are not without hope that it may be done. It would be but simple justice for the War Department to require recruits to be credited, under all circumstances, to the localities in which they are curviled. As each district under the new call, must furnish its fall quota of men. actually mustered into service, there is the grossest injustice in allowing weathy cities to come in competition with sparsely populated and comparatively poor districts in the payment of bounties. The result may be, if it is allowed, that some districts unable or unwilling to pay bounties, will be so depleted in men by the tempting bounties of the cities, that they will not have men enough left liable to military duty, to fill their quotas. We appeal to the authorities to arrest this glaring wrong at once.

The same argument applies to the different districts of the county. There should be come. at once.

The same argument applies to the dif-

The same argument applies to the dif-ferent districts of the county. There should be some uniform system adopted, and a common effort made to fill our quota without competition between dis-tricts and the intervention of the bounty jobbers and sharks, who batten on local committees and soldiers. We believe that the best plan would be for the county to offer a bounty of \$100 to volunteers, and make provision also for the payment of \$100 to the family of every drafted man dependent upon his labor for support. This would require a large expenditure of money it is ture; but it would sot cost the people of the county one-half as much In money it is true; but it would not cost the people of the country one-half as much as will be expended, and collected by taxes in the town-hips, if each district goes hap-hazard into competition with the rest, and a vastly greater amount of good will be done for soldiers and their families. Remember that the families of soldiers; when in want, as is often the case, are a tax upon the generosity of the people of each district under any circumstances and to make provision for families of conscripts is humane, just and in the end economical. This system would, we are persuaded, produce more good with the same means, than any other that could be adopted. The burden would fall equally upon all, and men would feel that if compelled to serve, they would not leave their loved ones to want or doubtful charity.

## DEMOCRATIC TREACHERY.

We give in another column of to-day's paper a letter from Harrisburg, giving the plans and policy of the Democratic leaders on the questions of allowing our soldiers to vote, and of Bling up our armies under the last call of the President. The writer is well informed on the subjects be treate, and his statements may be imtreats, and his statements may be im-

treats, and his statements may be implicitly trusted.

The Democratic leaders despair of defeating the extension of suffrage to not soldiers, because the thousands of honest and patriotic men of that party, who are misled by the charm of Democracy into the embrace of the foes of the government, would openly and manfully revolt should they arwo their hostility to the soldiers voting. Therefore they must be silent; they must conceal their hatted to our brave armies and the cause for which they are periling their lives, and operate only by steath and treachery to procure votes against the proposition. operate only by senturi and treachery to procure votes against the proposition.— They will not succeed, however, for the loyal men of the State, of both parties, will, on Tucsday next, confer these just civil rights upon our brave men in the field.

third. The developments made by our correspondent touching the position of the Democratic leaders on the increase of our armies, would be appalling, indeed, were not the treacherous proclivities of those politicians well known. They will not rolunteer, or be drafted. Union mea may enlist with their approbation; but Democrats must stay at home to aid in defeating the enforcement of the duaft! This is the last desperate effort of the allies of traitors in the North. Well do they know that the re-inforcement of our heroes in the field will bring the war to a speedy close, without the fearful sacrifices

heroes in the field will foring the war to a speedy close, without the fearful sacrifices which must ever attend offensive move-ments unless the military force is over-whelming; and if the war is ended and treason driven into submission and shame, the hope of Democratic success at the next election is at an end. To give the Dem-

the hope of Democratic success at the next i-clection is at a neal. To give the Demo-ocratic party a victory, and caushie it to i-treak the full of traitors by disgraceful diplomacy, they deliberately resolve to exhaust themselves to give success to the releds in the field. They frankly confess that in the defeat and sacrifice of the Union armies alone is their hope of Dem-ocratic success at the next election.

-Let loyal men of all parties ponder-well these painful truths. Let but the peritily of these lenders be made known to the people, and teunor thousands will revolt and array themselves in the ranks of the Union party. We welcome the Democratic lenders to their work of trea-son. Let them unfold their treachery, as they soon must, and the People will rise in their majesty and sweep into atter shame, the trick-sters who would build a partizan victory upon the triumph of our country's foces.

J M'Dowell, Sharpe, Esq., is brought out by a correspondent of the Spirit as the Democratic candidate for Judge of this district. The -western commise had about resolved to monimate Hon. F. M. Kinmell, and it will probably be left for Franklit to decide who will be the candi-
