SATURDAY NIGHT, U.S.A.
WEDNESDAY, JUNE 22, 1860.

J. S. BARBOUR, Editor and Proprietor.

Notice.

In order to protect our business from ruinous loss, we have determined to adopt the Cash system. Therefore, during the 1st of July, we shall commence drawing a black mark over lines of our subscribers who have remitted us no money for the year, and the advance bill will be placed in the hands of an officer for collection. We shall rather have 1000 subscribers who pay in advance than have 900, many of whom do not pay at all. Those who trust to memory and read "The Vindicator" will pay their subscribers for the year by the 1st of July. We have to pay cash for every thing managed without office, and in order to know what kind of business you are doing, we must touch the cash system. We want nothing to do with those kind of persons who never pay a cent for the paper.

NOTES FROM EUROPE.

ANNUAL OF THE UNITED KINGDOM.
New York, June 20.—The United Kingdom, from Liverpool on the 9th inst., has arrived.

Genoa, June 8.—News from Italy says that capitulations had been concluded by General Lasalle to Garibaldi, but the terms are not known.

Paris, June 10.—The King of Naples has accepted the intervention of the five great powers to guarantee the integrity of his dominions. He more immediately claimed the intervention of the French Emperor for the protection of Sicily, and proposed to proclaim immediately the constitution of 1862. He also requested the great powers to employ their authority and influence to prevent Piedmont from favoring insurrection on the main land of Naples.

Regarding the collective action of the Great Powers, Garibaldi was the first to swear that he did not intend to interfere with the conflict, except perhaps, to stop it from spreading.

Without aiding either party. The other Powers gave similar replies.

Napoleon replied immediately, that mediation was only possible between two Powers, and that unless Naples recognized the Sicilian insurrection, no mediation could be had.

Lord John Russell, however, has gone back to Piedmont not the ferocious dispositions in the Peninsular possessions of the King of Naples.

Except Austria, who has no diplomatic relations with Piedmont, the other Powers have profited the same.

The London Times, of Friday, predicts that the present month will end the Bourbons rule in the States of Italy.

The sailing day of the Great Eastern will not be later, and they will be earlier, than the 23d.

Advice from Bombay confirm the refusal of China to accede to the English proposition.

The Indian Battles at Pyramid Lake—The battle lasted for fifteen minutes, when there appearing to be an opening up the river, an effort was made to retreat. Henry Merle of Nevada, (and formerly of Virginia), and John Baldwin, (son of Judge Baldwin, of California), were on foot, their rifles having broken away during the fight in the snow. Merle was wounded, and a circle of red skin discharged their rifles at him. He fell, but raising on his elbow, fired both barrels of his shot-gun, and killed two of his pursuers. The rest fled in, cut him to pieces. Baldwin was taken up behind a friend on his staggering horse, and carried into safety. They hid in the bushes. The Indians hunted him within a few feet of his hiding place. At midnight he and a Chilian walked off to the mountains. They fed on grass and roots until Monday, when, quite done over, they staggered into Virginia city.

The Masonic Fraternity—The past few years have been marked with the rapid growth of Masonry in the United States.

The number of members within the jurisdiction of the Grand Lodge of the several States are not reported, but we learn from statistics of the Grand Lodge of the United States that there were in 1859 upwards of 4,000 lodges, but counting the number of members for each lodge at forty-five, which is nearly one less than the general average for the State of New York, and thirty-five less than that of Pennsylvania, we have the number of Masons connected with lodges in the Union as nearly two hundred and seven thousand, while there are a large number of Masons in every State not connected with any lodge. It is safe, therefore, to put down the number of Masons at the present time within the United States at a quarter of a million.—*Pittsburg Post*.

The Richmond Examiner says:—Mr. Pittsburgh, of Carolina, who was prosecuted for being accessory to a felony committed by his servants in burning a barn, applied to the Auditor of Public Accounts to have the warrant on the Treasurer for the value of the slaves who had been enslaved. Upon the return of the rule, the judge refused the状状。 It appears

that the auditor refused payment because the claim was prosecuted as being accessory, and has had from the State to avoid a trial. If the owner had been convicted, the law denied all compensation, and it appears the Auditor thought the claim should be suspended until he was tried, and thereby determine whether he was or was not entitled to the value of the slaves, under the 11th section of chapter 212 of the Code. Pittsburgh is now in New Mexico.

Miscreants Recuse.—Mr. Wm. J. Blane of Springfield, in this country, has sold a pasture field near the village, a few days ago, for the purpose of putting his riding horse. Upon one side of the field was a precipice, ranging from ten to fifty feet, beneath which is embedded the most frightful and dangerous looking rocks conceivable upon approaching, the horse, which was somewhat vicious and difficult to take up, wheeled upon the edge of the precipice, lost its footing and falling, knocked Mr. Blane off with it.—The horse was almost instantly killed, but made no effort to tell Mr. Blane that some few slight bruises, his fall being broken by a small bush at the base. Upon

the fall, he recused himself, and was thirty-five feet perpendicularly.—*Romey Intelligencer*.

The Standard—News of the 14th instant says:—We are pleased to be able to state that Mr. David M. Dillow, who has been active in his efforts to interest the business men of Savannah and of Georgia, in this matter, has received a sample box of tools and shoes of German manufacture, which the credulous are invited to sell as genuine.

The Blue Sulphur Springs, in Greenbrier county, Va., have been purchased for the establishment of a Baptist College, at \$40,000.

There are 200 visitors at the Montgomery White Sulphur Springs.

LAND FOR SALE.—

A Commissioner of the Circuit Court, I will sell an additional copy of 100 acres of land to the T. C. Billings, and lying on the land of the T. C. Billings, for the sum of \$1,000 for the compensation of the construction of the structure of the Charleston Custom House; twenty-five thousand dollars for the New Orleans Custom House, and other small local matters of the bill, are included in the civil, legislative bill.

A Human letter says:—The capture of the three slaves of this country by the American slaves still continues to be an absorbing topic of conversation among the slaves, many of whom are largely interested in this trade, and the owners of our Navy are roundly abused for not respecting the national doctrine of the right of searching.

The slaves here are said to be worn down with what they have already undergone, the misery of a portion of them witnessed the assassination of two soldiers in Philadelphia; others again visited the mint, and several of them visited the gun works, machine shops, &c.

Supreme Court of New York.—The Supreme Court of New York, on Monday last, confirmed the judgment of the referee in the case of Agnes Kidder, vs. Walter Kidder, assailing the marriage of the parties upon the ground of fraud on the part of the defendant. It appeared that the parties were married in the month of July last, the lady being then just turned fourteen, and the defendant being about thirty-one. The lady was the daughter of a wealthy ship-owner, and the defendant a waiter in dining saloon. The parties became acquainted at a boarding house, where the lady was staying, with her father, who had been absent during the absence of her father. On the day of the marriage, a girl named Anna, residing in the house, induced plaintiff, with the consent of her mother to visit New York, promising to return the same evening. Shortly after going out, they were met by Kidder, who took the parties to a store in Cherry street, at which place he pourtrayed something which she thought was dangerous to plaintiff's health, but it turned out to be a soapbox. The parties then went to a clergyman, who had been visited the day before by Kidder and induced by his strenuous efforts to agree to perform the marriage ceremony. The next day plaintiff acquainted her mother with the marriage, at the same time imploring forgiveness, as she did not know what she was about at the time. Defendant had tried to obtain a consent to the ratification of the marriage since, but plaintiff wholly refused to consent thereto, and instituted the proceedings which have resulted in restoring her freedom from the claims of the shrewd and unscrupulous dish-washer.

Shockley Tragedy in Texas.—The *Houston Monitor* has a lengthy account of the doings of the negroes in Grayson County, Texas. Near Kentuckytown, a man named Lincoln whipped his negro boy. A negro white to the master, who had been visited the day before by Kidder and induced by his strenuous efforts to agree to perform the marriage ceremony. The next day plaintiff acquainted her mother with the marriage, at the same time imploring forgiveness, as she did not know what she was about at the time. Defendant had tried to obtain a consent to the ratification of the marriage since, but plaintiff wholly refused to consent thereto, and instituted the proceedings which have resulted in restoring her freedom from the claims of the shrewd and unscrupulous dish-washer.

A Commissioner of the Circuit Court, I will sell an additional copy of 100 acres of land to the T. C. Billings, and lying on the land of the T. C. Billings, for the sum of \$1,000 for the compensation of the construction of the structure of the Charleston Custom House; twenty-five thousand dollars for the New Orleans Custom House, and other small local matters of the bill, are included in the civil, legislative bill.

A Human letter says:—The capture of the three slaves of this country by the American slaves still continues to be an absorbing topic of conversation among the slaves, many of whom are largely interested in this trade, and the owners of our Navy are roundly abused for not respecting the national doctrine of the right of searching.

The slaves here are said to be worn down with what they have already undergone, the misery of a portion of them witnessed the assassination of two soldiers in Philadelphia; others again visited the mint, and several of them visited the gun works, machine shops, &c.
