COMMISSIONER'S SALE OF LAND.—On Saturday, November 28th, 1863—In pursuance of a decree of the Circuit Court of Augusta county, I will sell, at public auction, at the premises, the tract of land belonging to the estate of Bailey Shumate, dec'd.

This property contains about 600 Acres, of which 350 are well timbered, and the whole well watered and in good condition.

The buildings are sufficient, convenient and comfortable and the fencing in good order. There are 2 good orchards on the farm and the whole establishment is well appointed and kept up.

This about 12 miles from Staunton, near Parnassus or Mount's church, adjoining the lands of James Byers, Wm. Howe, and others, and is convenient to churches, schools and mills.

About 60 acres have been seeded in wheat which will be sold at the same time.

The attention of purchasers is invited to this property as really valuable and desirable.

TERMS: The property was purchased at a sale under decree of the Circuit Court. About $6,600 of the purchase money remains to be paid as follows:—$2,500 on 30th March, 1864; $2,050 on 30th March, 1865; and the balance on 30th March, 1866, with interest from date, bearing interest paid annually. These payments must be met by the purchaser to the satisfaction of the Court. The residue of the purchase money may either be paid in full at the sale, or may be kept on interest, as the purchaser may prefer. The land is divided at the sale of the other proceeds as the purchaser may choose. For the payments to be made in Court, the purchaser must give bond and security, and the title will be retained until the purchase money is made.

Sufficient metal can be readily obtained. The works are now in successful operation, and the dwellings and all necessary buildings are in good condition. ADJT & INSP'R GEN'L'S OFFICE, Richmond, October 24th, 1863.

GENERAL ORDER, No. 110.

Nov 16.

TREASURY DEPARTMENT, C. S. A., Richmond, Sept. —, 1863.

TO THE TREASURER, ASSISTANT Treasurer and Depositaries of the Confederate States:

The proposal is deemed a fitting occasion to call the attention of the public to measures which have been provided by Congress for reducing the amount of Treasury Notes in circulation.

1. The first and most important of these measures is the offer to the public of $50,000,000 of six per cent 20 year bonds, with interest payable annually in cotton or coin. The notice is to be delivered at one of our subports, at the valuation of three sterling, or 15½ cents per pound for New Orleans middling. At the present price of cotton at the sea ports, this interest is equal to about 36 per cent. per annum; and might be raised the value of the bonds beyond any that are on the market. After serve all advertisements for bids, the price of the Bonds has been adjusted at 50 per cent. premium; and they are now offered to the public at that rate. By paying in $1,500 in Treasury Notes at any Depository of the Treasury, the holder may obtain a bond for $1,000 payable in coin in 20 years, upon which the interest is to be paid annually, either in coin or with 500 pounds of cotton of the quality of New Orleans middling. The advantages of such bonds for investment are obvious. Neither principal nor interest is subject to depreciation from a redundant currency. The principal is as secure as the forbearance of the Confederate States, and the interest paid during the war will, at present rates of cotton, pay 20 per cent. per annum, and after the war realize six per cent. in coin or its commodity of equal value.

2. The second measure adopted by Congress, the funding of Treasury notes issued since the 5th of April, 1863, in six per cent bonds, at any time with in twelve months after the date of issue.

The holder may option for these notes at the Treasury six per cent. bonds, payable in 20 years but redeemable after five years, the interest payable semi-annually.

3. The third measure is presented by the offer of five per cent. Call Certificates upon the deposit in the Treasury or any Depositary certain six months of any of the notes issued since the 5th April, 1863. These certificates are commendable above all the issue. They are payable in coin, are not converted and if not re-deposited within that time, they are entitled to be funded in 6 per cents, for 20 year bonds, redeemable after five years, with interest paid semi-annually.

4. By the 17 section of the Act of 17th August, all Treasury notes issued before 1st April, 1863, and also all Treasury notes issued during the interval between that date and the 1st of September, 1863, are funded in four per cent. certificates, redeemable at the pleasure of the holder after the expiration of two years from their issue, and bearing interest from the 1st of September, 1863. These certificates are also convertible into 6 per cent. bonds, redeemable after five years, with interest paid by him.

The Secretary would call attention to the convenience of different forms of the certificates and should all be required to issue them. But I would merely remind you that the Secretary will now, by authority conferred by the last Congress, receive on deposit Treasury notes of any description, to the amount of $50,000,000 and at once issue certificates therefor. Such a fund will be available for any emergency. He will first offer the 5 per cent. certificates payable in coin, with the right reserved to withdraw the notes if the proposition is not accepted within a certain time. If these should not prove the value of the currency, he will then offer the 6 per cent. bonds bearing interest in coin, which cannot fail to command a ready sale. Should neither of these measures meet with an effective response, he will then offer the 4 per cent. certificates, redeemable after two years, bearing interest in Treasury notes of similar description to those paid in
