

On Friday evening last, the forces under command of Gen. Emory had a skirmish with the advance guard of Sigel's forces at New Market, in Shenandoah county, in which the enemy were driven back and a part of them captured, together with a number of horses, ninety five muskets and two cannon pieces, besides other property.

On Saturday following there was no battle, only some skirmishing. On the next day, Sunday, there was very hard fighting, and we were successful in repelling the assaults of the enemy. On Monday there was also some fighting. On Tuesday the battle was of a severe character than any which I had preceded it. We repulsed the enemy with very great loss.

On Thursday morning at day light the enemy, having massed forces in front of Johnston's Division, made a most vigorous assault upon Jones' Brigade, and for a while our line was broken. They pressed our breastworks, gaining possession of several pieces of artillery, and capturing a number of prisoners.

On Sunday the battle was fought on the whole line and was fought by the Yankees with more vim and bravery than in any other fight in Virginia.

Our men, after a temporary repose in front of Johnston's division, successfully repulsed every onset of the enemy, who repeatedly assaulted our lines with troops massed in as many as ten columns.

Our boys stood to their work manfully, piling the enemy's dead thickly before our breastworks.

Our good people have never failed to respond to any call made upon them to furnish supplies to our gallant soldiers when in need.

Since the terrific battle has been going on in Shenandoah county between the armies of Lee and Grant, hundreds of wounded soldiers daily arrive at Gordonsville on the way to the Hospital at Richmond, Lynchburg, Charlottesville, or Staunton.

The Form Pillow Affair—The alleged measure of the negroes at Fort Pillow by General Forrest was under consideration in the Yankee Senate on Saturday week. On motion of Senator Howard, a resolution was adopted, instructing the Committee on the Conduct of the War to inquire into it, and whether Fort Pillow could have been better managed or evacuated, and that said committee be instructed to report as early as may be possible. Specimens were made by Messrs. Howard, Wilson, Johnson, Conner, and Grimes, in favor of strict measures of retaliation, in a form of UNIFORMITY.
