VALLEY SPIRIT.

CHAMBERSBURG, PA.

Wednesday Evening, August 10, 1860

GEO. E. NEUFEL, Publisher and Proprietor.

FOR PRESIDENT, STEPHEN A. DOUGLAS, of Illinois.

FOR VICE PRESIDENT, HERSHEY V. JOHNSON, of Georgia.

PRESIDENTIAL ELECTORS.

Table listing names of Presidential Electors for various states including New York, Pennsylvania, Ohio, and others.

FOR GOVERNOR, HENRY D. FOSTER, of Westmoreland.

FOR THE CAMPAIGN!

THE VALLEY SPIRIT AT 40 CENTS.

The 'Valley Spirit' will be furnished to all persons who are not now subscribers from the 22nd of August until the 22d November, either singly or in clubs, at 40 cents per copy, payable strictly in advance.

All who desire the success of Democratic principles and the election of the regular nominees of the Democratic party, both National and State, are respectfully solicited to use their influence in circulating the Valley Spirit.

Meeting of the Executive Committee. The Democratic State Executive Committee met at Crescon, on Thursday last, and with the utmost harmony and great unanimity adopted a proposition which will unite the entire Democratic vote of the State on the regular Electoral Ticket formed by the Democratic Convention at Reading.

for DOUGLAS, if the majority of the party are with him, and vice versa for BRECKINRIDGE if he should happen to stand in that position. It is a just rule that works both ways, and we have this rule, as applied in this case, to be a just and a good one. Every prudent and patriotic man in the party must rejoice with "exceeding great joy" that the unfortunate dissensions which have sprung up in our ranks are now about to be healed, and that the whole strength of the party will rally to the support of a single Electoral Ticket.

We are willing to make all due allowance for "pride of opinion," but in this county the DOUGLAS Democracy can afford to be generous. We can lead off, we trust, in this magnificent course of moderation without suspicion or reproach from any quarter. Our position has been unmistakably defined; nevertheless, if we were convinced that the name of the distinguished Statesman of the West which we were the first to boast in this State, for the Presidency, after the Baltimore Convention, was objectionable to any portion of the party, in this county, or would in any way operate against the success of our County or State ticket, we have just the independence to take it down, until after the October election, regardless of consequences to ourselves when the interest of the party was at stake.

Fulton Democrat. The Fulton Democrat comes to us this week with the name of BRECKINRIDGE rampant and DOUGLAS couchant. We do not know whether this is to be a permanent arrangement, or a mere saw-sawing between the Presidential candidates for the fun of the thing. We regret to learn that rather a bad state of affairs exists among our Democratic friends of Fulton. We do not wish to be considered as giving advice in other people's business, but in our humble opinion, the most effectual corrective, under such circumstances, would be to keep down both DOUGLAS and BRECKINRIDGE until after the County and State election. The ill-feelings engendered among Democrats, by the division on the Presidency, is doing the party in this State no good.

Republican County Convention.

This interesting body met in this place on Tuesday, 7th inst., and after rather a disorderly session nominated the following ticket with scarcely a hope that it would obtain the suffrages of the party:— Assembly—James R. Brewster. Prothonotary—A. D. Cauffman. Register—E. C. Boyd. Clerk—W. G. Mitchell. Commissioner—J. D. Scott. Director—J. L. Latschaw. Auditor—George Jarrett.

We have no disposition to mislead the public in regard to this ticket, and we certainly do not overstep the bounds of truth when we say that it has fallen on the bulk of the Republican party like a wet blanket. A more unsatisfactory ticket could not have been fixed up if the Convention had had that special object in view. The candidates nominated for the offices of Prothonotary, Register and Clerk are very commonplace gentlemen, without qualifications to fill the offices and no claims upon the party. The Convention made a very bungling affair of it and they had hardly adjourned until they discovered their blunders and were quite free in expressing their regrets. The ticket is generally disowned by the party and will command neither its respect nor its support.

Political Eronautics.

A bag of gas was inflated, in Huntington, last week, and sent up, which, after floating around some time, lit in front of the Court House, in this place, on Tuesday evening, where it exploded. The bag was labeled "Hon. JOHN WILLIAMS" and while it was puffing and panting under the process of exhausting its gas it afforded considerable amusement to the boys round the Diamond. Our Republican friends seemed to be quite put out and disgusted with the exhibition, but the boys and the Democrats enjoyed it hugely. It is intended to have accensons over the State during the present gubernatorial campaign—this and other gas bags are to be inflated and sent up with ANDY CURTIS attached to them handsomely decorated with flags of the Black Republican, Disunion, Know-Nothing, Abolition, People's Party, and every other party and creed, to indicate his variegated political principles. This is certainly a novel feature in political campaigning, but we should think it infinitely more agreeable than riding their candidate over the country on a "rail," so which poor Lincoln must submit. It is admitted that this is a progressive age and that where a party has no rational political principles it is justifiable in adopting any means to create a sensation, and carry its candidates forward, even if the means should be as ridiculous as a rail or a gas bag!

Electoral Ticket.

A sickly paper published in Juniata county named the "Register," and edited by an individual making large pretensions to being a man, exhibits his malice by striking two of the names from the Electoral Ticket, formed by the Reading Convention, and parades it in that mutilated state weekly in its columns. There is not another Breckinridge paper in the State, to their credit be it said, that has followed this dastardly example, or even noticed it. They seem ashamed to let it be known, that one of their papers, however insignificant its character, could be so dispassionately and debased. The Register's main professes to be very spunky about the matter and says he is "not afraid," though it is very evident he would sneak out of it and palm it upon the Juniata Democracy if he possibly could. He tries to screen himself by saying it "reflects their sentiments" and, complacently adds, "that is all we care about." Yes, that is all he cares about—principle, honor and decency are not taken into the account by him. He don't care about these things, not he—he's not "afraid." It may be that it is not the "sentiments" of the Register's main and that the "Juniata Democracy" are accountable for the misdeed, but we will require more respectable testimony than that of the REGISTER before we can be brought to believe that the Democratic party of Juniata county, or any portion of it, approve such an act of presumptuous meanness. The establishment of a new Democratic-Douglas paper in Millintown and its entire success indicates pretty plainly how much the REGISTER "reflects the sentiments" of the Juniata Democracy. It is not the first time the REGISTER has tried its hand at creating disorganization in the party and giving aid and comfort to the Black Republicans in a "political" way, (as professes to practice "political homeopathy") and we need not, therefore, be surprised to find it again at its dirty tricks.

A Snake in the Grass.

FORNEY'S Press is opposing, with all the subtlety for which it is noted, the union of the entire Democratic party of the State on the Electoral ticket formed by the Reading Convention. It is in a degree presumptuous on the part of Mr. FORNEY to step back into the Democratic party, uninvited, and attempt to control its action. It is becoming more and more apparent every day that the Press is secretly working for the overthrow of the Democratic party in this State. The signs of the times clearly indicate that the period is not very remote when FORNEY will follow in the footsteps of his illustrious leader, HICKMAN, and land openly and above-board in the Black Republican ranks. It will be a lucky day for the Democracy when they get rid of him and his treasonable scheming. While he professes to support Judge DOUGLAS, he is straining every sinew to circumvent him, and hopes the party will be "gratified" with a "clean victory or a clean defeat," he is not at all particular which it may be. In order, however, to make sure of a "clean defeat" for the party, he publishes a call in the Press for a meeting, at Harrisburg, on the 15th inst., to get up an electoral ticket in opposition to the regular ticket formed by the Reading Convention. If he secures the attendance of a baker's dozen of Democrats, other than of his own kidney, at the bogus meeting, called for the 15th, we will have a poorer opinion of the Democratic party of Pennsylvania than we ever expected to entertain.

A Letter from Wisconsin.

MILWAUKEE, July 29th. Messrs. Editors.—Since the Republican party has recognized the doctrine of "the irrepressible conflict," Democracy is fast gaining ground in Illinois, Iowa, Minnesota, Wisconsin, Michigan, Indiana and Ohio. Thousands in these States are deeply impressed that—"While the lamp holds out to burn, 'Tis wisest nearer to retire."

the movement, and have never seen so decided a step taken by any class of men. The excellent health enjoyed by the vast population of the great west—the bright genial weather, the beautiful harvest, the abundant yield of all the substantial and luxuries of a fertile land, the great harmony in the Democracy, the great and vigorous effort put forth for the regular session of the Baltimore Convention, and the want of life in the Republican ranks, are all indications that tend to confirm the opinion, that an all-wise Providence is shaping our ends and that—"Truth is mighty and will prevail."

The leading talent of the West is actively engaged in the cause, and Democracy is gaining ground fast, thousands from the opposition are flocking to her ranks every day. It is generally conceded that Wisconsin, Iowa, Minnesota, Illinois and Indiana will go for the Democracy. And since the Bell ticket is gaining strength rapidly in Southern Ohio, fears are entertained by the prominent Republicans in Ohio that even this State will roll up a clever Democratic majority.

The West will do her duty. She has advanced an age beyond the period of rail making, and is ready to confer her honors upon the party that has ever honored her. Yours truly, OBSERVER.

Philadelphia has been given the west by which she is 250 miles nearer to St. Louis than New York by her roads. Baltimore is a road by which she is 300 miles nearer to Cincinnati than New York by her roads. These sources of rivalry are recent works; but would already have had a crushing effect but for the fair harbor and precedence this city has attained in foreign trade.

There is a route to the west entirely within the power of New York, of which she can now avail herself, that would overcome these difficulties and place her virtually as near to the western trade as any one of these cities. It is a Grand National rail road through the state of Pennsylvania, a large portion of which is already built and all of the easiest possible construction and grade.

By the request of persons along the line, a recently been over the route from New York to the Ohio river, preparatory to the effort to bring the subject before the citizens of New York in such form as to induce them to consent to it, and prepared to set and do all in their power. As a matter of fact, the reasons I have given to feel some interest in the subject, I propose very briefly to state the result of my observations, which will be more fully set forth in a report now in preparation for general distribution in this city.

The Central New Jersey, Eastern Pennsylvania, Lehigh and Lebanon Valley, together constitute a line to Harrisburg, 182 miles, straight well built and of easy grade. It is one of the best roads in the country and would take a large share of the freight and travel to New York but for the discrimination of the Penn. road in favor of Philadelphia. There is also a road nearly completed from Allentown to Danville, either of which would be open to a great thorough route. From Harrisburg west there are still two routes, up Susquehanna and Cumberland valleys, both beautiful and rich, separated by a range of mountains. The route is either in almost without care or grade, and the local business of either will pay a large interest upon the cost of a road as the Cumberland valley now does on the road to Chambersburg. The building of the Sherman's Valley would open a new country, timber and the celebrated Broad Top. Coal served to a market by near forty miles. At Berr's Cabin, 70 miles from Harrisburg by Sherman's Valley the two routes unite. For that gate there is a good charter and a company organized with Gen. Wilson of Huntington as president, and plans are now being matured to give it vitality and progress.

The route through Bedford and Somerset Counties I followed closely, and found it one of the easiest roads to construct that could be imagined. It follows the Juniata, Red Bank Creek and Wilds Creek until it rises to the small tunnel crossing the Allegheny at the Sand Patch, which tunnel is nearly completed by the Gettysburg road Company. From this point the route descends Castle-

man's River to Conowingo in Pigeon Co. from whence the road is completed to Pittsburg. With the completion of a road from a point on the Conowingo road to Washington, 50 miles, he has a road to Wheeling, Va., the western terminus of the B. & O. Ohio route on the Ohio river, and places New York within 700 miles of Cincinnati, 300 miles less than by any road now controlled by New York interests, and having no grades or curves like those on the Baltimore or Pennsylvania roads.

In a few days I shall forward you a detailed report, in which you may find something of interest, as the subject will yet be felt as one of national concern. Yours, J. A. WHARTON.

Later from California.

St. JOHNS, August 9.—By the arrival of the Pony Express, San Francisco advices to the 29th ult. have been received. SAN FRANCISCO, July 28.—There is a better demand for goods, with an upward tendency, owing to light arrivals. Coal is firm, but the demand is limited. Provisions dull; butter superior; sugar from 67c to 70c and less dull.

Several prominent Democrats who first sided with Mr. Douglas have turned over to the Breckinridge cause. An address has been published, favoring his claims for the Democratic support. On the 17th, a man named Watson was murdered in Sacramento and his house robbed. Circumstances led to suppose Wm. Watts as the murderer, who was arrested at the Washoe mines. On the night of the 20th, under charge of three men, he was being conveyed to Sacramento, when he slipped his hands out of the handcuffs, and taking a revolver from one of his guards, shot all three of them, killing two instantly, and wounding the other so that he died the next day. Watts made good his escape.

Gen. Shields came by the Pony Express to Los Angeles. The recent discovery of copper and other minerals in Calaveras county has excited considerable attention.

A strong effort is being made to prove the will of Senator B. Clark a forgery. From the samples of silver ore received from the Convo district, fifteen miles south of Owens Lake, it is thought that another rich mineral region is opened, equal to the Washoe. Five leads of silver, copper, and tin, have also been found there. Emigration to that district has already commenced.

The mining intelligence is generally encouraging. No Indiana have been seen lately on the east side of the mountains. The schooner C. E. Post brought 50 feet Mongolian camels from the Amoor, designed for carrying burdens in the mountains.

JAPAN.

At Hakodadi July 23d, everything was quiet and business was progressing very slowly. The Japanese appear very friendly, and disposed to afford all facilities to the trade and guaranteed by the American treaty.

The intelligence of the reception of the Embassy at San Francisco had been received with great satisfaction. The prices of goods had considerably advanced.

The cargo by the Ishu Fune, besides the camels, comprises tea, silk, etc., from Japan, and furs from the Amoor.

OREGON AND BRITISH COLUMBIA.

The dates from Oregon are to the 21st ult., and British Columbia are to the 25th ult. The observations of the eclipse by Lieut. Gillis were entirely satisfactory.

Lady Franklin.

Among the noticeable arrivals in New York by the Adriatic, is that of Lady Franklin, in company with her niece, Miss Craycroft. It is understood that Lady Franklin will remain some weeks in New York as the guest of Mr. Grinnell, the magnificent patron of the expedition sent, under command of Dr. Kane, in search of the party of Sir John Franklin. The splendid results of this expedition are known to the civilized world, and the names of Franklin and Kane will go down to posterity occupying the highest position on the list of those intrepid navigators who have sought to wrest from the arms of nature itself the ice-bound secrets of the Polar Circle.

Franklin, as is well known, perished amid the inhospitable regions he was endeavoring to explore, and Kane died soon after his return from the expedition which has rendered his name immortal, from a disease the seeds of which were sown by the exposure and suffering he was compelled to undergo in his efforts to release his party from their dangerous position. The name of Sir John Franklin has become historical as well by reason of his services in the cause of science as by his melancholy death; and his wife, extensively known by her unremitting efforts to satisfactorily ascertain the fate of the expedition of which her illustrious husband was the head. We do not doubt that in the tour she contemplates through the United States she will be the recipient of that respectful attention due so faithful and estimable a woman.—Pennsylvania.

A Fox's Pancreas.—Twenty years ago, a farmer's barn in the vicinity of Worcester was struck by lightning and burned to the ground. Many of the citizens had gone to the barn, to get their sheep and other stock, and the celebrated Dr. Green, and associated him in this wise: "Can you—ah, tell me, doctah, how far they have succeeded in extinguishing the conflagration of sheep—ah, unfortunate poor man's barn?" The doctor of the individual attending the sheep, said he could not get the sheep out, but he thought he might get some of them out, and then offering his sheep and furs into his coat pocket, but not a sample of pills and gave them to him, saying, "When these are gone to bed, and if you do not feel better in the morning, call on my office."

THE BALTIMORE CONVENTION.

There is a right and wrong in politics. And the right is on our side. No let us march the way. And let the Union rise.

This was the noble one. There were three. Through stormy politics. With Eastern and Western eyes.

When Webster shook the friendly hand Of noble soul of Calhoun. They were all true conservatives. Henry Clay for the Union then.

We tell the Northern faction. To let our slaves alone. The Southern fire-eaters. Had better be woe their home.

A curious coincidence. The following advertisement appears in the Pennsylvania Gazette, published by Dr. Frank...

Here Treason. Winter a band of miserable fanatic. They are all true conservatives. Henry Clay for the Union then.
