GEN. FOSTER.—The Centre Democrat, (the Republican organ of Centre County, the Republican organ of Centre county), has at length concluded to pitch in to Gen. Foster, our worthy candidate for Government.—We take the subjoined extract from that paper of the 19th ult.

"A finer gentlemen than Ganeral Foster cannot be found in the State, and it is an infernel cutrage for his party to treat him so shabbily. He is the model of an Atherican gentlemen and statemans. He is an apright consistent man, and such measure always welcome to oker ratks. One thing we will promise him if he joine us we will at least treat him decembly, and that is more than the Democrats are during for him at the present time. We are corry that we are pleased in a bestile position toward Geostral Foster, for we like sorry that we are placed in a heatile position toward General Foster, fee we like him very much, and some what may, no word of abuse shall ever secape our lips hybas peaking of him, nor will we stand hy and hear him tradesed by any one. Democratic County Meeting.

The Democracy of this county assembled in annual county meeting in the Court House, in this place, on Tuesday evening last. The object of this meeting was for the sole purpose of appointing a time for choosing Delegates to represent the party in the County Nominating Convention, and fixing the day for holding said Convention. on, and The authenticated proceedings of the meeting we publish in another column. We were pleased to find a full attendance at the meeting and to witness the sensible and harmonious manner in which the proceedings were sensible and harmonious Right. manner in which the proceedings were conducted. The Hon, Wilson Reil-ly was appointed chairman of the meeting, and a more judicious selection could not have been made to meet the exigencies in the present state of af-fairs in the party. Mr. REHLLY on fairs in the party. Mr. REILLY on taking the chair made a forcible and appropriate address, which was charappropriate address, which was charter the County Meeting the the several townships it and which breathed, in every word, the spirit of a conservative and whole-souled Democrat. After Mr. REILLY had briefly stated the object of the Meeting between the object of the Meeting Delegates on SATURDAY, AUGUTES Delegates so the second or resolutions offered, that would tend to district the next townships it and the County Meeting the second of the second to distract the party on any question, or that would disturb that harmony and unity which should ever prevail among Democrats. There never was a time in the history of the Democratic party, said he, when greater danger threatened it, or when more caution, noderation and forbearance should be exercised by members of the party one towards another. He cantioned them not to fan the flame of discord, or widen the breach that divides the party, but by a frank, generous and concilicourse bury all amimosities and shoulder by shoulder and battle for an old fashioned Democratic victory. He ardently desired to see union and harmony in the ranks of the party and hoped that every good Democrat would feel the importance of maintain-ing our organisation entire and undi-rided, and presenting a united. in the battle about to come off, against our common enemy. He exhorted the party to lay aside all prejudices, make an effort to heal all distractions and to work energetically and harmo-niously together and a glorious victory would be the certain result over the enemies of the Democracy and the Union. The speech of Mr. REILLY was well received, and loudly applauded, and will exert a most salutary influence throughout the entire rank of the party in the county. At the conclusion of Mr. REILLY's remarks the meeting fixed the time for the Delegate elections, and holding the Convention, and immediately adjourned. It now becomes the solemn duty of every Democrat in Franklin County would be the certain result over th

very Democrat in Franklin County to give his hearty acquaintance to the wase and prudent connects that pre-vailed at this meeting. We trust that its admonitions will be respected and that the party will feel bound to con-sistently follow the noble example so we must agree to make this difference but it should not be mixed up with our State or County affairs. We want union and heart the Democracy shoesends of discord in our ranks are "growing small by degrees and beautifully less;" and we may hall the restoration of hermony to the party as the sure harbinger of the britangle of Democracy over Block the utmost hermony.

To the Democration of hermony to the formation of the britangle of Democracy over Block the utmost hermony.

Our course under the favorable turn political affairs have recently taken, is clearly and undeviatingly marked out. We will turn neither to the right or to the left for any man's frowns or to the left for any man's frowns or the terms of the party, the whole party, and not be confined in the choice to a column of applications for the left for any man's frowns or to the left for any man's frowns or the terms of the party, the whole party, and not be used to the left for any man's frowns or the leastly in a minority. Whenever we have in our eagerness to serve the party will, but not too wisely, committed the blunder of airanging one portion of it against the other, let us turn back and start right. It is at all times, and under all circumstances, more honorable to right a wrong than to persist in wrong doing. That our intentions may not be misrepresented by our enemies, or those pretended friends who would atab us in the dark on all occasions, it may be necessary for us to state briefly what our future course will be. It will save these are gots yeed friends from adeal of trouble in eventually to explode and blow the whole party into atoms! We intend to labor with all our real and best tablity to effect a union of the party on the regular Electoral Tecket formed by the Democratic State Convention at Reading, under the recent plan adopted by the State Convention at Reading, under the recent plan adopted by the State Convention at Reading, under the recent plan adopted by the State Convention at Reading, under the recent plan adopted by the State Convention at Reading, under the recent plan adopted by the State Convention with the solices of the party in this counties. We have succeed it in the other, recent plan adopted by the State Convention with the party in this counties. We have succeed it in the counties of the party in this counties. The production is a single party was a start of the convention of the party in the scale of the party in this counties. The production of the continue of the party in the scale political affairs have recently taken is clearly and undeviatingly marked out. We will turn neither to the right or on the regular Electoral Tacket formed by the Democratic State Convention at Reading, under the recent plan adopted by the Stade Committee. We have sty and conscientiously believe that the success of the party in this State, not only in regard to the Pres-idency, but of our can Indicates for tow-error, Congress, Assembly and Comernor, Congress, Assembly and County Offices, depends upon the adoption and faithful adherence to this wise and pacific meas are; and believing this no personal considerations will cause us to swerve from the course we have deare in for union, in for harmony, and in for the success of the Democratic party. That is our platform.

Democratic County Convention

If conformity with the resolution of the County Meeting the Democrats of the several townships in this county, will meet at the proper place, in their respective districts, for the purpose of

SATURDAY, AUGUST 25, 1860. These Delegates so elected will assendle at the Court House, in this place at 10 o'clock, A. M., on

TUESDAY, AUGUST 28, 1860. to neminate a County Ticket to be supported by the Democracy of Frank-lin County at the general election on the second Tuesday (the 8th) of October next.

We trust that our Democratic friends throughout the county will turn out and take an interest in the Dele-gate elections. These are trying gate elections. These are trying times in the party and it requires our best and most cautious men to guide the helm aright, and the most careful and judicious management to prevent matters from getting worse. If the moderate men of the party will attend the Delegate elections and see that proper men are sent as Delegates to the Nominating Convention it will be the first and most important step toward harmony and success in this county. But if our primary elections be neglected, or left to the manage-ment of a few men who take but little generally, and who seem to care whether strife or harmony prevails in its ranks, it will have a bad influence and a falling off of party strength and a fairing on or party succession must be the consequence. At this time, more than anyother, it behooves every Democrat to exert himself to promote unity and harmony in the srty if he d sires its success subject of the Governor th one sentiment among the Democracy of this county—all are enthusiastic for the gallant FOSTER, and it is our honest conviction that we can nomi nate a County Ticket that will be tri-umphantly elected. Would we then sacrifice all because there exists a difference of opinion on the subject of the Presidency? We must agree to tolerate this difference but it should not be mixed up with our State or County affairs. We want union and

party union is not only strength but for office in our party. The Conventure of ability, and will, deablies, make the certain victory! Our course under the favorable turn trusty men from the ranks of the whole party and not be confined in its choice to a column of applications for

Hereto-fore it was all smooth sailing to edit a Democratic paper even through an exciting political campaign, but with two candidates for the Presidency in our own party to keep the old. Sinp-right, and clear of the breakers on one side and the shoals on the other, re-

Some of the leading papers in this State have up the names of both Dovu-LAS and BRECKINKIDGE and they seem LAS and BRECKINKIDGE and they seem to be dwelling together in peace and much put out about it and find fault

The editor of the Fulton Democrat was absent, at Cresson, a few weeks ago looking after the interest of the Doug-Las wing of the party when his brother, the junior partner in the paper, hauled down Douglas and hoisted the BRECKINRIDGE flag. The brother re-turned and there was another hauling down of flags.

Many of the papers that are doing good service in the party have only the Electoral Ticket up and have not declared a preference for either of the candidates for the Presidency. The prudent example of these papers might be followed, until after the October election, with advantage to the party all over the State.

The retiring editor of the Jackson county (Indiana) Union, gives the following graphic account how that paper was changed to go for DOUGLAS.

We may look upon the difficulties that have existed in our all future discussion on this head. By an anneable adjustment of all discrete, and under the official authority of the State Central Committee, both wings of the party have been placed upon an equality, and both being thus acknowledged must be equally respected. There would be no justice in any other view of the preference between the two Democratic Presidential candidates, assured that his vote will not be thrown away, but that it must count against the enemies of his party and the companies.

A truce has b

united, there is time enough to do the work, and do it well, for the Nation.

A Soble Letter.

An old and highly respectable Democratic friend, residing in this county, has favored us with a communication on the condition of the Democratic party. We publish the letter, with much pleasure, in another column of our paper. We feel highly complimented by the remarks of the writer, and for his kind consideration toward us, and his efforts to heal distraction abalt be President. If we grout and in the party, he will accept our thanks and our gratitude. His noble letter go our Governor, away will go our Constitution. An old and highly respectable Demin the party, he will accept our thanks and our gratitude. His noble letter comes to us like "manna in the will cover to stop the whole party and not a particular faction. The good opinion of the author of this letter, and his approval of our course, would compensate us for any amount of denunciation from those we never expected to please. We would carnestly solicit all our subscribers to read the letter.

Organize.

We have ascertained that in several townships in this county the party have neglected or been prevented from forming Clubs on account of the divisations. It is the party to the party in the possible party in the possible party.

We can all see for ourselves that the Republicans are laughing in their sleepts.

We have ascertained that in several townships in this county the party have neglected or been prevented from forming Clubs on account of the division in our ranks on the Presidential operation. This is all knong. Organization that the Republicans are laughing in their sleeves at once—the good old-fashioned name at the division to embrace the whole party. There need be no want of a proper and thosough organization on this account. Call them DEMOCRATIC CLUSS in the name of DUTGLAS or BERGKIN-RIDGE is not required to be hitched on not want to see our party follow the example of our opponents and change their name or attach some new appendances.

RIDGE is not required to be hitched on not want to see our party follow the example of our opponents and change achieved many a glorious victory under the clean name of DEMOCRAT and their name or attach some new appendances.

REFIGURE 29 The court of the Court of the Court House three years longer. The prospects for the cleasion of our gallant candidate for Governor, are getting brighter every day. A letter from Old Berks informs us that and dictaded of the Democracy will roll up at least 7000 majority for him. In the Eastern part of the State, the BRLL meen will support him, and we can look for stunning Forram majorities is that the great the following the way things are duce in the Ounty officers of the State and the Court of the Court House three years longer. Donosents are not so easily tennelered to the Republicans as certain patterns imagined. The Curtin is bound to fall.

It West Work.

The plan for union on the Electral Ticket agreed upon by the State Central Committee is received but with one sentiment throughout the State. The leading men and the leading Tarern and entered into a conspiracy to party in this State. We can obtain no information of their doings except, what comes to us through Formay's Press and ranks on the Presidency as nearly re-that is black and trescherous enough a to unite on a single. Electoral ticket is keep their transactions concessed from should settle this matter and allay all actually with the hope that the burits of diversity of opinion it has created. The friends of both Dottolas and their plottings will foll upon the party like. Bleckinning cordually approve the minor and are pledged to sustain it.

The question as to who is the regular, or irregular, nominee need no longer agitate and distract the party the acceptance of the compromise waves as the many nones are to be acceptance of the compromise waves all future discussion on this head.

By an anneable adjustment of all dif. M. Keim as I substituted Hop John Ces-

stitle last week, and in the speech of this show champton of Pinnorsey. He will some Reilly, at the county meeting. That is the right kind of talk—art is the vote of Pennorsey as we used to hear it in the good old times. Give us more of it. The people like to hear it.

Here we are—more than three thousand Democrats in Frankini county, and more than equarter of a million in Pennsylvania. We have not been divided since the Wolf and Waltenberg spite in 1835, which some of us who are getting that. 1835, which some of us who are getting a little gray now remember very well, though it was twenty-fire years ago. We didn't make out well enough by that division to encourage us to aplit again. It turned out rather badly for us—but not so badly as a split would turn out sow; for than we had neither Congressmen nor County Officers to elect, and now we have both both.

VALLEY SPIRIT.

Too and another day will complete the addition.

Compressional Comferees.—The Republican Conferees for this District met in this place yesterday, That inst. and of course cominated somehody as their Congressional candidate, but who that unfortunate individual is we are not informed at the time our paper goes to press. It is thought that McDierson will acceed in forcing himself on the tickst much against the wabse of some of the concline in the District.
