Lock at her garmants Clinging like acrossos: Whilet the wave occation Drips from her elething; Take her up inchantly, Loving, not leathing.

Make no deep scrutiny lato her matiny; Rash and undutiful; Past all disheaor, Death has left on her Unly the beautiful. Still for all slips of hers, One of Eve's family-

Loop up her treeses, Eccaped from the comb Her fair anburn treeses Whitst wonderment gate where was her home?

Who was her friher? Who was her mother? Had she a sleter? Had she a brother? Or was there a dearer Yet then all others?

Alas! for the rarity, Of Christian charity, Under the sun Under the sun. Oh! it was pitiful! Near a whole sity full, Home she had sees.

Slaterly, brotherly, Patherly, methorly Facing had changed; Love, by harsh eviden Thrown from its emil Even God's providence Soming estranged.

The blesk minds of March.

But not the dark arch.

Or the black flowing river;

Made from We's history,

Ulad to deathe mystery,

Swift to be hard'd—

Anywhere, anywhere

Out of the world!

Bre her limbs 'rigidly Stiffen too rigidly. Decently—kindly— Smooth and sompose them, And her eyes, close them, Staring so blindly!

Dreadfully staring Through moddy impurity, As when with the daring Last look of deepairing Fig'd on futurity.

Into her rest, Crose her hands humbly, As if praying dumbly, Over her breest.

Oning her weakness? Her ovil behavior, And leaving with meets Her Sins to her Savier!

Let sinned against, and sinning, Forget their strife's beginning, And join in friendship new; Be fruk ne loogue brokes, Be sweet forgiveness spokes, Under the helly bough.

To who have loved each other, Sister and friend and brother, In the past field year, Nother and sire and child, Young man and maiden mild, Come gather here;

And let your bearin grew fine An memory shall pender. Heek past unbroken vow. Old lores and younger week, Are sweet in the reasoning Under the helly bough

'Of course—you men have no taste at all in such matters.

We were silent for a moment; I'm afraid we both felt a little cross and out of humor with one another. In fact, on my journey home, I had entertained serious thoughts of exchanging my old silver watch for a more modern time-piece of gold, and had mentally appropriated the ten dollars to further that purpose. Savings bank reflections had come later.

As we sat before the fire each wrapped is a thought, our neighbor, Mr. Wilmot, knocked at the door. He was employed at the same store as my-self, and his wife freed.

Is it possible? I crised. A little cottage bome of my own, just little that I had often admired on the Blooming-dale road, had always been the crowning ambition of my lite—a distant and almost hopsless point, but no less sensely desired.

Ta Release of Mason and Slidell.

The Dubuque (lows) Herald, in speaking of the release of Mesers.

Mason and Slidell, says:

"On what principle, we would like to know, have these prisoners been surrendered except upon the simple demand of Great Britain, ademand which should never be respected by an American stateman, as we are sure a compliance with it will not be endorsed by the American people. We suggest that Congress express the sense of the people by passing a joint resolution description of the set and of the indignation which it has evoked in the American mind. Thus might the dishonor to which the country has been subjected be averaged and disgrace obliterated from the National securities."

CHAMBERSBURG, JAN. 15, 1802

We have disposed of the Valley Spirit Printing Establishment to Mesers. P. S. DECHERT and B. Y. Mesers, P. S. DECREET and D. T. Hamsus by whom the paper will hereafter be published. This ar-rangement will make no change is rangement will make no change is the business relation our patrons hold with this establishment. The size, price and tone of the paper will susmais unchanged, and the business department of the office will be conducted as heretofore.— The new firm will take charge of the entire business of the establishment from the first of January, 1802. It is not necessary for us to bestow an extended eulogy on the gouleones to whom we have sold out. Their characters as hones men and good eithtens will be endorsed by every man in this community. They possess all the qualifications necessary for condicting a successful and popular paper, and one that will not only command the support of its own party but the the entire business of the establishupon as the business man of the cetablishment, and in truth, to his energy and tact is the paper indebted for the extensive patronage it now enjoys. He will be found ear-offul and prompt in all business transactions and never fail to deal justly by, and give entire satisfaction to the patrons of the establishment. Mr. Hamshen is a gentleman of unblemished moral character, houunblemished moral character, hou-ored and estemed by all who know him. He is a sterling Democrat-and most ardently devoted to the principles of his party. In 1857 he was nominated by the Democratic party for the office of Clerk of the Courts of this County, and although the party is in the minority, he was elected by the very handsome majority or hearly three hundred-votes. He fulfilled the duties of his office faithfully and intelligently, and it was the general remark that we never had a more attentive and accommodating officer to fill the position he occupied in our Courts. We know of no man in the county who would be more acceptable to the Democratic party in connection with their political organ than Mr. Hamsher. Under the judicious Hamsher. Under the judicious management of these gentlemen the Valley Spirit cannot fail in maintaining the high character it has acquired, and retaining and extending its circulation and patronage.

In taking leave of our patrons we would return our thanks for the very liberal patronage and many acts of kindness bestowed upon us We labored, in return, assiduously and conscientiously for the advancement of the Democratic party, and from the very generous support we have uniformly received we feel that our efforts have been apprecia-ed and fully rewarded. In retiring e would bespeak for the new firm e patronage of the public in general, and from the Democracy that "aid and comfort" which they, as the publishers of the political organ e party in this county, are enclaim.

the Patrons of the Valley Spirit, From the above announcement will be seen that the undersigned become the proprietors and ners of the Valley Spirit.— from which the reader can glosus faithful history of all important matters of news that is transpiring at home and abroad.

We solicit a continuance of the generous patronage heretofore ac corded to this paper, and we hope it will not be presuming too much to ask its former friends to make special effort, at this time to enlarge special effort, at this time to cularge the circulation of the paper and increase generally the patronage of the Valley Spirit office. We will not only toel particularly grateful but will besides liberally renunerate all who will take an interest in extending the business of our establishment.

B. Y. HAMMERS.

Chambersburg, Jan. 1862.

The Abelitionists at Work There are two classes of politicians in our country engaged in efforts to prevent a restoration of the Union the Secresionists of the South and the Abolitionists of the North. Of the two the most deadly foe to the Union is the Abolitionist of the North. He stands ready to sacrifice incutions necessary for conducting a successful and popular paper, and one that will not only command the support of its own party but the respect of the public generally.—

Mr. Dzenar has been connected with the Valley Spiril ever since its establishment in this place in 1848. Thouse is contending for his region of the was always looked upon as the business man of the establishment, and in truth, to his energy and tact is the paper indebt. way down South, but he entertains the most spir-one contempt for the black man around him. He would move Heaven and Earth to free the stare, and elevate him to an equality with the white-man, but the free negro at his door might, come up as a worthless weed and rot where he grows for ought he cares. This is the fanstical one-sided idea that has crazed the heads of so many northern politicians.— We mig'it laugh at the absurdity of the thing as we do at spiritualism, free-loveism, and all the other issues that go hand in hand with Abolithat go hand in hand with Aboli-tionism, was there not such "a method in the madness." as to pro-duce a great deal of trouble in the country. With this fauntief faction, the "Constitution of the United States is a Covenant with Hell;" the Flag of our Country—the Gio-riona Stars and Stripes—is "Hates Polluted Rag;" the leader of this Abolition party, but a short time ago, declared that he went in for a dissolution of the Union because he considered the dissolution the abo. "considered the dissolution the abo-lition of slavery, and if the Union Inton of slavery, and it the China mide every man sawise as \$6 Junn, and as safe as an angel in the courts of Heaven, to cling to it would be a damnable crime while slavery exists." It is these atrocious sentiments, and, others like them, that have provoked the present war, and to realons. others like them, that have provok-ed the present war, and to prolong it to the "bitter end" the nigger is dragged into the contest by his woolly-head at every turn until it, has resolved itself into a war for the special bouefit of Sambo, and his abolition admirers. To fight for the maintenance of the Union or the defune of our Constitution and the defence of our Constitution and the defence of our Constitution and dovernment is no part of the aboli-tion creed. With them the motto is "the Union may slide but hold on to the nigger!" Is it to be wondered at that the Southern people felt alarmed at their position in the Union, with four hundred mil-lions of property in slaves endan-gered by the advent of such a fiend-

States Senate in 1889, which has been literally fulfilled: whilehers of the Valley Spirit.

This arrangement, we truet, will be of the patrons of he establishment in a business way, will be one constant aim to promote the establishment in a business way, will be one constant aim to promote the same of the patrons of he establishment in a business way, will be our constant aim to promote the same of the patrons of the percentage of the patrons of the p

ish party to power? The country was well warned of the mischief that abolitionism was brewing in the land. That wise statesman and

pure patriot HERRY CLAY made this vonderful prediction in the United ion will be quickly ful I will not attompt to my no consecuted from our late themselves much obrish and become at the contempla lade, conferred dies much the conferred dies much

Thus said the great and good statesman Henry Chay. His coun-sel was heard and heeded by the men of his day and there was no civil war in the country. He knew where the real danger lay and pointed out Abolitionism as the evil that would ultimately over-throw the Union. He was a man throw the Union. He was a man of peace and the friend of compro-mise for the sake of the Union, but if he lived at this day and would talk of peace he would be pronounc-ed a "traitor," and of compromise a "roward." The concervation men' of the country, backed by the uniter Democracy, have labored long and faithfully to svert the c. lamities. faithfully to svert the c. lamities, that now hang over the land like a funeral pall; they have warned the people that unless a stop was put to the progress of Abolitionism it must surely end in the dissolution of the Union. The warning was unlesseded—a sectional party, roured, with the land of the Union of the Union the Control of the land of the Union of the Union of the Union of the Union of the Abolitic warning was unlessed to the Control of the Union of the land of the Union o on the basis of Abolitionism, was elevated to power and at once the horrors of a fratricidal war burst upon us, without with all the violent prejuas, "attended with at the votent preparations, embilitized passions and impla-oible animosities which ever degraded or deformed human nature." Thus has the prophesy of Clay become

This scheme of smanipating the negroes is a programme of blood and herrors. It can be the such as the second of th not be carried out without violating not be carried out without violating, the Constitution and destroying the Union for ever. Those who favor this infamous proposal will boldly tell you that the Constitution must be set aside. They are well aware that it recognizes Slavery and protects it in the States where it exists, tects it in the States where it exists, but that is of no consequence in their minds. The wor must be presented for the entire and total abolition of Marcy or it can meet with no favor at their hands. This is the issue they have thrown upon the country which is to divide the emitment of the Northern people and crush out every spack of Union of the Northern Levilla on the Northern people and crush out every spack of Union the Northern people and crush out every spack of Union the Northern people and crush out every spack of Union the Northern people and crush out every spack of Union the Northern people and crush out every space of the Northern people and crush out e timent of the Northern people and crush out every spark of Union feeling in the South. The North has, heretoforce, been united and her people making great sacritices, and contributing men and money to carry on the war for the restora-tion of the Union and enforcement of the laws. The Abolitionists would pervert it from this object and make it a grand scheme for the emancipation of the negroes. Will emancipation of the negroes. Will our army fight in such a cause? To free four millions of ignorant ne-groes would be one of the most inhuman acts that could be inflicted inhuman acts that could be inflicted and who take any with spiritualism, free-lovesim morth and south.
