Valley Spirit. CHAMBERSBURG, FEB. 10, 1862.

LOCAL NEWS. Notice.—The Board of the undersigned, late proprietor of the Valley Spirit, will remain in the office, with a person to receive notices, on all days, or on any day as possible. Geo. H. Mearns.

COUNTY SUPERINTENDENT.—Many persons, who seem well enough, but who are unmindful of the amount of labor performed by the County Superintendent of Common Schools, consider the salary paid to that officer too large, or that the office itself is altogether a useless one. Persons who entertain such opinions are laboring under very erroneous and unwarlike views. It is not an office in this county more directly beneficial to the people than that of County Superintendent, and hence so poorly remunerated, when we take into consideration the amount of labor required to be performed by the incumbent. During the past year the Superintendent of Schools for this county, P. M. Shoemaker, Esq., has held examinations in the schools of twenty districts, examined over three hundred and fifty teachers, visited two hundred and fifty schools, attended eight educational meetings, delivered six addresses, devoted one hundred and sixty-nine days to official duties, traveled one hundred and thirty-four and four miles, and written two hundred and thirteen letters to business appraising his office. We think that no one, after this will say that the office of County Superintendent is not a labor of love, and that the excellent condition of our schools prove conclusively its usefulness.

CONTRACTOR.—We were led into an error, as we believe many of our readers to whom we applied for information, last week, in regard to the condition and operations of the Visiting Sick Society. Our informants were supposed to know something about the societies and that they stated they believed it was no longer in existence. We were told, however, as soon as our notice appeared, that it was an error, and that the Society was not only in existence, but in active operation, having relieved a great deal of want and accomplished a vast amount of good this winter. None can feel more rejoiced than we do to make known this gratifying fact, and remove any injurious impressions or notices which have occasioned. We don't know after all but some good may result from our blunder. The attention of the community has thereby been directed to this benevolent association, and the resultants, more generally, will know where to apply for assistance, and our obedient citizens be prompted to bestow, with more liberality, their favors on the Society, assuming that such benevolent institutions be dispensed judiciously for humane and charitable purposes.

ENTERPRISE EXTRAORDINARY.—Our amiable neighbor of the semi-weekly taken down all his extraneous in the way of enterprise by chartering, exclusively for his own use, the underground railroad, to be used in the transportation of army intelligence in advance of the regular Telegraph. The first message came over the rail on Friday last, (an unlucky day, at precisely 10 A. M.) and the enterprise was suitably "celebrated" by the "ringing of bells" and other demonstrations at Atlantic Cable. We have always felt considerable put out by the one-sided accommodations of the Telegraph office here, but now we can snap our fingers at it and twist it with the same result that the old "Tortoise" and the hushes were on fire—"why don't you run!" Bull by the semi-weekly, old Rip Van Winkle has woke up again! "We suggest the propriety of procuring a gun."

THEIR CONTRACT.—We make the following extract from the Monthly Report of the Superintendent of Common Schools of Franklin county, in relation to the condition of the schools in this county in a most flourishing condition:—"Our schools are all open, as well as supplied with teachers, (in good condition), and are well attended. There are few absentees, and I think considerably better. They are in a general way in a prosperous condition."

They are on the verge of being taken down all his extraneous in the way of enterprise by chartering, exclusively for his own use, the underground railroad, to be used in the transportation of army intelligence in advance of the regular Telegraph. RECOMMENDATION.—The officers of the War Department of December 24, and of the 25th of December, 1861, and of the 26th of December, 1861, and of the 27th of December, 1861, and of the 28th of December,
