Not much room for waste of money on a salary of six hundred a year, answered Hoffman.

There is always present waste, as a long strength of the salary of th

I should like to know where the leak in my flagon is to be be found, said Hoffman. If think it would puzzle a finance commit-tee to discover it.

Well, suppase we go down into the matter of expenditure, itom by item, and made some use of the common rules of arithmetic as we go along. ### A PLINE AT DERSSING COWYS.

My name is Albert Fling. 1 am an active, business, morried man, that is, wedded to Mrs. Pling, and married to business. I had the misfortune, as wedded to Mrs. Pling, and married to bus news. In the hours of torture endured while wering it, I have appealed to my dear wife to truly tell me where also first concrived the thought that there was a grain of confort to be found in hearing to my plack! ### Notice to Subscribers.

Our subscribers have doubtless ta-then not ce that for several weeks their names have been printed on their pa pers, instead of being written as for-merly. We find this new process of merly. We find this new process of directing our papers revy convenient. Our subscribers will find it very con-venient too, as each of them can see by every number of the paper he re-ceives, precisely the time when he be-sume or shall become indebted to the firm of B. Y. Hamshur & Co. for subscription. Thus, the subscriber who finds the date "Jan I. 1862." printed after his name, will understand that he ower an from that date; whilst

printed after his name, will understand that he owes us from that dare; whilst he who finds "Joly 1, 1862," printed after his name, will understand that his subscription is paid up to that date. As our terms are \$1.50 per annum if paid within six months, and \$1.75 if not paid within six months, and \$1.75 if not paid within that period, even benefits who finds his time deted. Jan. 1, 1862, will save ternly five earts by paing his subscription on or before the first day of July next.

### Mot veraey.

There seems to be a spirit of mob There seems to be a spirit of mobine of mobine maintening itself at the present of the indifferent sections of the country. From our exchanges we hearn that it strains in almost all parts of the noble old State of Pennsylvania, and even in our own country we retain in our own country we have heard intimations of the same. have heard intimations of the same.

But a few days since we were told of threats that were made against several our most highly respectable merchants in certain portions of the county. This spirit of lawlesaness, we are fain to believe, only exists in the minds of the most degraded class of the comof the most degraded class of the com-munity, for certainly no respectable and law-abiding citizen would con-tensince anything of the kind. We have a few words to say upon this subject in behalf of the Democratic paper in season of the Democratic party of Franklin County. Democratic to a man are law-abiding and peacea-ble citizens and opposed to every spa-cies of violence. They love the Con-stitution and Union with a patriotic etien that knows no abating. We see the sentiments of the Democradeveties that knows no abating. Me have the sensiments of the Demorra-oy of this occusy, and as we know then in here give them under the sidema obligation we owe to our country and our God. We do not be-lieve there is a single disloyal Demo-rate in the country, or one who does got with his whole heart desire to use the government vindicated and man-tained against the senselts of treason tained against the senselts of treason rement vindicated and main sined against the seconds of the pro-ed the notice energy from its pro-et columities to all its former great it collastiting to all its fermer greatman and glory. But whits they are
being a loyal and patriotic support to
many accessory measure to support
they accessory measure to support
the pubbly rebellion, they will not
make the support
they make to indignities and outtype, for no other affices that the
type processor of their houses continents
opposition to the radical and desoversite government.
