There is no principle of civil liberly, of constitutional and common law, plained than this. Neither our State or Federal courts have ever ventured to deprive a man of life, liberty or property except by due process of law. If men can be punished as traitors without trial and conviction, then are our boasted tights a sham, a de-

lusion and a nare, and we are living in the dark shades of an unlimited despation.

The position of the Democratic party on this subject is the only safe position. It is the position of concernative Republicans like Judge Thouse, and Semaner Cours and Browling. It is the position that must pressli if we srate to energy from this coeffice with our rights and institutions and liberties unsimpaired.—Partiet and Union.

We see it stated in the papers We see it stated in the papers that among the last acts signed by the President is one prohibiting braks and other corporations from issuing notes below the denomination of one dollar for circulation. We would have to know where Congress finds the power to pass such an act, and with authority the President has for signing it? Has Congress on the President been suffered to trample on State Rights with such a freetien as to create the belief in their minds that they can usurp all State authority with impunity? It looks like it.

Go d News—Congress has adjourned—proclaim the glad tidings through-out the land, it will be great joy to all people. It is as good as a Union victory. Let the bells be rung and the flugs holated. We may expect soon to hear of some glorious triumple by our armise now that Congress has adjourned.

Congress, among other silly acts passed a law, just pr vious to siljourn passed a law, just pr vious to sujourn-ing, making postage stamps currency.
